COUNCIL PROCEEDINGS

STATED SESSION.

Stated session of the Council, held at the Council Chamber, City Hall, on Thursday, January 1, 1903, at 12 o'clock m.

Present—Councilmen Cooke, Fitzpatrick, Fox, Greten, Hoppe, Hopper, O'Rourke, Schultze, Stell and Voll.

Absent—None.

The following communication from His Honor Mayor Lankering was presented, read and on motion of Councilman Fox received:

Mayor's Office,
Hoboken, Dec. 30, 1902.

Mr. James H. Londrigan, Acting City Clerk:
Dear Sir—You will please call a meeting of the Council for Thursday, January 1, 1903, at 12 o'clock noon, for the purpose of organization and such other business as may come before it.

Respectfully yours,
A. LANKERING,
Mayor.

Acting City Clerk Londrigan stated that the first business in order would be the election of a permanent Chairman for the ensuing year.

Councilman Stell nominated Councilman Schultze as Chairman.

Councilman Schultze declined.

Councilman Schultze moved that Councilman Stell be elected permanent Chairman for the ensuing year.

Adopted by the following vote:

Ayes—Councilmen Cooke, Fitzpatrick, Fox, Greten, Hoppe, Hopper, O'Rourke, Schultze and Voll.

Nays—None.

Declining to vote—Councilman Stell.

Absent—None.

Acting Clerk Londrigan declared Councilman Stell elected permanent Chairman for the ensuing year and requested Councilmen Schultze and O'Rourke to conduct him to his seat.

The Chairman having been conducted to his seat, returned thanks for the honor conferred.

Councilmen Cooke, Fitzpatrick, Schultze, Hopper, Stell, Greten, O'Rourke, Voll, Hoppe and Fox presented the following:

Resolved, That James H. Londrigan be and is hereby appointed City Clerk for the unexpired term of John Haggerty, deceased.

Nays—None.

Absent—None.

Councilman Fox moved that a Committee of two be appointed to wait on His Honor the Mayor and ascertain if he had any communication to present to the Council.

Adopted.

Chairman Stell appointed Councilmen Fox and O'Rourke as such Committee.

Councilman Fox moved that the Board take a recess subject to the return of the Committee.

Adopted.

ON REASSEMBLING.

Present—Councilmen Cooke, Fitzpatrick, Fox, Greten, Hoppe, Hopper, O'Rourke, Schultze, Voll and Chairman Stell.

Absent—None.

The Committee, returning, presented the following communication from His Honor Mayor Lankering:

Mayor's Office.

City of Hoboken, Jan. 1, 1903.

Gentlemen of the Council:

A year has passed since I submitted my first annual message, and again it becomes my official duty to present to you this yearly communication.

The majority of the members of your honorable body entered with me at the beginning of the past year upon the duties devolved upon us, as the representatives of the people of this city.

At that time I deemed it my privilege and duty to remind your honorable body of the assurances given to our constituents, and, mindful of the responsibilities resting upon me as chief executive, I expressed the hope for your co-operation in a spirit that would secure the faithful fulfillment of the trust reposed in us and bring forth results beneficial to the city.

I deeply regret that circumstances unnecessary now to refer to, prevented the establishment of such harmonious relations between your honorable body and myself during the greater part of the year, as are absolutely essential to dispose of all business coming before us without partiality or unjust discrimination.

The final adjustment of the existing differences has been greeted with general satisfaction, and your aid and assistance to establish such conditions as will induce confidence and encouragement to renewed efforts in that direction in be-

half of public interest will be highly appreciated.

In my last message I pointed to the best means of securing good, honest and economical government as well as continued progress in the general condition of our prosperous community. It may be well to remind your honorable body, before I refer to other city departments, that the fundamental principle in city government as well as in individual management, is an economical administration and disbursement of the city funds. No work should be undertaken or contracted for by your honorable body unless you have the funds in hand wherewith to meet the costs of the expenditure.

This is not only a principle underlying good business management, but it is rendered mandatory and obligatory in your case by the provisions of the law. With this reference to the general principles which underlie all municipal action in every branch of the city government, I pass on to a consideration of the various departments.

During the last year it has been clearly demonstrated that the time has come to recognize the absolute necessity of a

SEWERAGE SYSTEM.

The advisory board appointed at the meeting held on March 26 last and consisting of the Messrs. Arthur Seitz, Palmer Campbell, Anthonio Borrone, John F. O'Hara, Richard Mooney, John Raffo, W. G. Faist, William Crawford, Patrick Driscoll, Henry Mehl, Gustav Hauser, Charles F. Mattlage, John Schmalz and Oscar Frommel, have given the problem most thorough consideration, and in their final report made such recommendations as to leave no doubt what course to pursue.

The work performed by these gentlemen is highly commendable and their report is most thorough and complete. The printed copies of the report may be had by any taxpayer and all those who desire information upon this important subject.

The city is put to considerable expense yearly for cleaning sewers, which expend-

iture, under present conditions, is made without material compensating results.

It is false economy to try to improve upon our present sewers without inauguration of a general sewerage plan, and immediate initiatory steps should be taken to make this important improvement possible without loss of time.

The numerous complaints which reach us from citizens whose conditions are made miserable by lack of proper sewerage accommodations, should receive our consideration and we should extend to them every effort to improve their condition, but at the same time we should impress upon them, and, indeed, upon all of our citizens, that permanent relief from the present sewerage conditions can be brought about only by earnest and energetic efforts on our part and by patient endurance of present evils by the complaining taxpayer.

The new drain-box placed in Fourteenth and Grand streets from Clinton to Thirteenth streets has rendered good service, and the new connection of the Willow avenue sewer with the Ferry street main sewer at Ferry street has benefited greatly the immediate property. The box sewer in Clinton street between Second and Third streets has been thoroughly repaired and is relieving the surrounding property. These improvements are accepted as evidence of your sincerity and are highly appreciated.

STREET IMPROVEMENTS.

The following improvements in street grading and repaving show a good record for the last year:

- Eleventh street, between Clinton street and the westerly boundary line.

Jackson street, between Fourth and Fifth street.

Grand street, between Seventh and Eighth streets.

Seventh street, between Clinton and Jefferson streets.

Monroe street, between Fifth and Eighth streets.

Jefferson street, between Fourth and Eighth streets.

Jackson street, between Newark avenue and Paterson plankroad.

Adams streets, between First and Second streets.

Second street, between Monroe and Jackson streets.

And, furthermore, bids for repaving of the following streets have been received:

Willow avenue, between First and Second streets.

Madison street, between First and Third streets.

Sixth street, between Park avenue and Clinton street.

The good condition of the streets adds greatly, if not mainly, to the attractiveness of any city for the visiting stranger, but as a matter of local pride, particular attention should be paid to the general appearance of our streets.

In passing through our streets, one cannot help noticing the unseemly advertisements upon paper and bunting hanging loosely and raggedly from our telegraph poles and other structures on our principal streets. Such sights are not an attraction to the stranger, and cannot be said to lend beauty to the city, and I would suggest that some measure be adopted to prevent their continuance.

In my first Message, a year ago, in reference to

STREET CLEANING,

I pointed out how everybody in the community might contribute towards a cleanly condition of our streets, by instructing their employees how to dispose of the sweepings from the sidewalks. The throwing of waste paper and refuse into the streets is still permitted to go on, although a decided improvement in this direction is noticeable.

Our Street Cleaning Department has done its duty, and a more effective system of regular street cleaning during the past year has been instituted in this department, and is appreciated by the public; nevertheless close superintendence will be necessary to further increase the good results obtained.

PUBLIC PLAY-GROUND.

Play grounds for children, especially for boys, on vacant lots, which might be loaned to the city by public spirited citizens, or hired for a small rent, would prove a great boon to them, while the expense to the city, as compared with the benefit, would be but little, where at the same time it would be a relief to the people occupying resident property.

Experience in other cities in this line has shown good results, inasmuch as public play grounds greatly improved the behavior of our youngsters, while window smashing and general recklessness have given place to orderly playing.

Such play grounds could be made attractive by light gymnastic apparatus, and thus become popular with those youngsters who at present are a menace to private property; and our

CITY PARKS.

It is, perhaps, due to the fact that we have not public play grounds for our children that our park keepers meet with great difficulty in properly keeping our parks, especially Church Square Park, in such condition as would make these places attractive, and beautifying to the city.

However, we believe a great deal more attention might be given to the cultivation of the grass and shrubbery as well as to the neatness of the park walks, and I hope the park keepers will exhibit in future their appreciation of the intended increase in their salaries, by giving more attention to the improvement of the parks intrusted to their care.

SCHOOLS.

There is no department in our city government in which the people are more deeply interested than that of our public schools, and I shall at all times consider it my foremost duty to take active part in the proper administration of this department.

The gentlemen entrusted with the affairs of our school government have my absolute confidence, and will no doubt contribute in every possible manner towards the furtherance of the efficiency of our schools.

The inspection of our school buildings in the early part of last year disclosed the fact that seemingly but very little had been done during the past few years to keep them in proper repair, and although the board of estimate advised a limit to the expenditure in this direction to the amount appropriated, the committee ordered work to be done greatly in excess of the appropriation, and thereby caused a considerable deficiency in the funds.

While no doubt the money was well spent, I wish to draw the attention of the new board to the illegality of such proceeding and advise the adoption of such regulation as will make it necessary for any special committee to obtain the sanction of the whole board for the ordering of work above a limited amount. I would like to see our schools well equipped and in good condition, nevertheless it will be necessary to exercise economy and to keep within the bounds of the yearly appropriation.

The new school is in course of erection, and although there will be a delay in the delivery of the bonds issued to cover the loan of \$130,000 to meet the cost of construction, I anticipate no difficulties in meeting immediate claims.

The purchasers of the school bonds, notwithstanding the opinion of the corporation attorney of this city and the attorney-general of the state in favor of the constitutionality of the bond feature of the school act, deem it but fair in the interest of their customers whom they represent, that the highest court of the state should pass upon the legality. With that object in view, the corporation attorney has arranged to co-operate with the attorney for the purchasers, so that a speedy decision upon the question may be reached in February or March.

POLICE DEPARTMENT.

The appointments and changes made recently in this department have met with public approval, and judging from the good order throughout the city, the department never was in better condition both in discipline and efficiency. There

is a great deal of important work to be done by this department, and I may safely say, in view of the increasing responsibilities of the superior officers and particularly of the chief, great credit is due to this department for its efficiency.

Chief Hayes, by his exceptional efforts to rid the city of undesirable elements and the suppression of gambling and other vices, has, during the short time since his promotion to the head of the department, earned the confidence and appreciation not only of the public at large but also the complimentary comment of the highest judiciary officer of this county.

The regulation uniforms adopted for the superior officers add favorably to the appearance of our officers and increase outwardly the general tone of the department.

New rules and regulations governing this department have been submitted to the board of police commissioners for their approval, and copies will be distributed among the men at an early date. The signal system has been renewed, and renders proper service.

FIRE DEPARTMENT.

The condition of this department continues to be satisfactory. Nevertheless, recommended additions to the apparatus should receive due consideration, and the chief of this department should be given all possible assistance at the hands of the fire commission in his earnest endeavor to raise the standard of efficiency.

The fire alarm system has been rendered as serviceable and reliable as can be expected, and through regular inspection of the lines and boxes, disorder has been reduced to a minimum. The discipline of the department is upheld and but few charges have been preferred.

The excellent work of the department performed in handling the Phoenix steamship pier fire during the month of March, gives additional evidence of the able management of the department, and praise is due to the men employed on this occasion under adverse conditions of freezing weather and long hours as well

as the inflammable nature of the material in the neighborhood of the fire, and the protection and final saving of the surrounding property.

WATER SUPPLY.

Quite recently my attention has been called by articles in the local press, to the question of the condition of our water supply. This is a subject of vital importance to our people, and should be regarded by us with the utmost concern and scrutiny in the protection of the lives and health of our citizens. I fully believe, however, after an examination of the subject, that the discussion of the matter was prompted by the recent action of the Bergen County authorities and not by any unusual or dangerous condition of the water as we receive it at this time.

It has not been brought to my attention by statistics or otherwise, that the mortality rate has been increased here in the last few years, or that the medical fraternity have reported the prevalence of disease peculiar to the use of contaminated or unsanitary water. I mention these facts in the interest of the city's welfare and reputation, and not because I entertain the notion that the water supply is all we wish it to be. I am fully aware that there are times when the quality of our water is not as desirable as at other times. A basis for your action in this matter is offered by the provisions of the contract with the Hackensack Water Company entered into by a previous council and board of water commissioners.

The deliberations and proceedings prior to the execution of this contract will be a source of information for and place you in a position to adopt the proper means to secure a continuous, wholesome supply for our people. If you consider the quality of our water supply not up to the standard, I would suggest that you appoint a special committee to investigate the question and recommend a remedy.

HEALTH BOARD.

What at one time was feared would be

a smallpox epidemic in our city, fortunately, under the energetic and capable treatment of our Health Board officials, was soon circumscribed and repressed. This fact, when generally recognized, will tend to illustrate the great importance of a well-regulated and properly conducted health board in our city. But, while the Board did everything possible to prevent the spread of the disease, it soon became apparent that the proper treatments of the disease and the prevention of an epidemic can be met only by the establishment of such accommodations as may be required to confine and limit the disease and answer the purpose of detention of the afflicted until such time when they may be removed to the proper hospital, also for the purpose of fumigating and disinfecting.

PUBLIC LIBRARY.

This Board has, during the last year, conducted its work harmoniously and faithfully. The library itself has been judiciously increased, not only by purchases in accordance with the requirements of the reading public who frequent it, but also by numerous donations by public-spirited citizens. The donation of Mr. Robert C. Brille, of this city, deserves special mention. It consists of three valuable maps; one representing Hoboken as it was in 1856; one general and historical, covering the history of Hoboken from its earliest days to the present time, and one of Hudson County and the vicinity. The work of co-operation between the schools and the library, it is pleasing to note, has kept pace with the general progress of the library, and the work of the latter institution is in no small degree directed to meeting the requirements of the pupils of our schools.

INDUSTRIAL SCHOOL.

The manual training school continues to deserve praise, and I wish, if it could be done, that the public would manifest more interest in the practical and artistic work of our school children, as evinced by the work in our industrial school and its results. The public, it seems to me,

does not realize the importance of this institution in our midst. Its public exhibitions of practical work should be better patronized, and students be encouraged to frequent and attend these instructions and impressed with the importance of the practical knowledge there to be gained as an introductory school to the workshop or to higher technical training.

The course of study also includes a thorough training in sewing and cooking, and the demand for instruction in this direction is growing, and the course of study very practical and extensive.

IN CONCLUSION.

Permit me to express the hope that this year will see the consummation of the improvements in the public interest which are herein outlined, and in the completion of which the people are greatly interested, and that, when completed by your co-operation and that of the

various departments in our city government, we shall feel the consciousness of duty well performed, and merit the approval of our fellow citizens.

Respectfully,
A. LANKERING,
Mayor.

Yours very respectfully,

Commissioners of Assessment of Taxes,
P. J. MURRAY,
Clerk.

The following communication from the Commissioners of Assessment of Taxes was presented, read and received:

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—We beg to notify your Honorable Body that we have this day, under the act passed March 24, 1899, Chapter 144, page 329, appointed Mr. Peter J. Murray Clerk to this committees.

Board for a term of five (5) years, beginning January 1, 1903, and ending January 1, 1908, at an annual salary of twelve hundred dollars per annum, payable monthly.

Yours very respectfully,

The following communication from the Board of Education was presented, read and received:

Office of Board of Education,

Hoboken, Jan. 13, 1903.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—At a stated session of the Board of Education, held on Monday evening, January 5, 1903, President Darcy, in accordance with

section 75, article 6, revision of 1902, appointed Messrs. Pruser and Mooney as members of the Board of School Estimate.

Very resceptfully,
W. A. KERR,
Secretary.

The following communication from the Board of Fire Commissioners was presented, read and referred to the Committee on Finance and Salaries:

Hoboken, Jan. 14, 1903.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—At a stated session of the Board of Fire Commissioners, held January 13, 1903, a report from the Chief Engineer was received, stating that engine No. 2, in responding to an alarm of fire on December 27, 1902, blew out one of the boiler tubes, thereby rendering the engine unfit for service.

Upon inspection of the engine as to the needed repairs required, it was found that the engine would have to be equipped with new tubes and crown sheets, necessitating an expenditure of \$1,000.

As the fire fund cannot stand such an expenditure at the present time, the Board has requested me to communicate with you and request that you make some provision for the raising of the sum required to make the necessary repairs to said engine, and to have the same placed back in service as soon as possible.

Trusting you will give this matter your immediate consideration and attention, I remain,

Yours respectfully,
JOHN F. KEATING,
Clerk.

On motion of Councilman Fox the Board took a recess subject to the call of the Chair.

Petition to the Honorable the Mayor and Council of the City of Hoboken, N. J.:

Gentlemen—We, the undersigned, taxpayers and citizens of the Fourth Ward, petition your Honorable Body to extend Clinton street southward to Ferry street.

Our reasons for the petition is that we believe that the opening of this street will be a great benefit to the community at large, also to the section and business interests located therein, as well as property values.

Praying that your Honorable Body will give the undersigned petitioners your due consideration.

The following communication from Chief of Police Hayes, which was presented to the Board of Police Commissioners and referred by that body to the Council, was presented, read and referred to the Committee on Licenses:

To the Honorable the Board of Police Commissioners:

Gentlemen—On December 30 last, about 11 a. m., a man named William Walters came to the station house and reported to the sergeant in charge of the desk that the night previous he had gone to the Amsterdam Hotel, cor. River and Second streets, where he met a strange woman. He said that he had a drink wth her, and that he remembered nothing further until he awoke in a room in the hotel the next day, and found that he had been robbed, presumably by the woman he was in company with, of money to the amount of \$36 and a gold watch valued at \$30.

In view of the fact that another robbery had been reported to me a week previous from the same hotel and under the same circumstances, I decided that the place demanded a most rigid examination as to the character of its habitues and its moral tone in general. I immediately detailed officers to make an investigation of the hotel and likewise the Hudson and another hotel from which evil reports had emanated. They were instructed to report to me daily the progress of their investigations, which they did faithfully and honestly.

Their disclosures revealed a grevious condition of affairs. They presented to me undeniable facts that the so-called hotels were nothing, more or less, than brothels and houses of assignation, where young girls of tender years and the hardened women of the street commingled for the one object, to entice and allure men. Shocking and disgusting stories

of the depravity of these women and the debaucheries practised by them were imparted to me, and as the ordinances of the city and the laws of the State were, with the full cognizance of the different proprietors, and with the utmost contumacy, openly and defiantly violated, I determined, as Chief of Police, in the interests of the law-abiding and good citizens of our city and the protection and security of the morals of their children, to end this atrocious and infamous traffic.

Accordingly, accumulative evidence was presented to Recorder Stanton, who issued warrants for the apprehension of the several proprietors, their managers, and the inmates. These papers were placed in the hands of the officers, with orders to exercise the greatest judgment and discretion in the execution thereof.

The warrants were served Saturday, January 17th, near midnight, and 35 men and women, some of them of the most depraved description, were brought to the station house and locked up.

On Monday morning all the prisoners were arraigned in the Recorder's Court, the inmates in most every instance being fined as disorderly persons and the proprietors held in bail on charges of violating a city ordinance, known as the "barmaid ordinance," and also for keeping a disorderly house.

The Amsterdam Hotel keepers, Dusack & Koch, and their manager, August Baumann, have since been tried before the Recorder and a jury composed of twelve estimable and unbiased citizens of our city who, after short deliberation, rendered a verdict of guilty of violating a city ordinance. The Recorder promptly fined them \$50 each, which was paid. Their case will also be referred to the Grand Jury on the more serious charge. The case against the Engelking Brothers, the proprietors of the Hudson Hotel, and their manager, is still pending and their examination and trial has been adjourned to Friday, January 30. The evidence in this case is also very strong and conclusive.

I submit to you Honorable Body my report on these raids, which in my opinion have been of the greatest importance, because in this manner we have been able to get to the bottom of an evil, from which this city has long suffered, the infesting of our streets by an undesirable class of women, who have made these hotels their haven and rendezvous.

In conclusion, I hope that the Common Council, by taking immediate action and by revoking the licenses of these places, will render the Police Department that assistance so essential to law and order.

Respectfully submitted,
PATRICK HAYES, JR.,
Chief of Police.

The following communication from John J. McGovern, License Inspector, preferring charges against Carl Rusack and H. Koch, of 134 River street, and Adolph Engelking, of 36 Hudson street, was presented, read and referred to the Committee on Licenses, in conjunction with the Corporation Attorney:

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—As License Inspector, I desire to prefer charges against Carl Rusack and H. Koch, partners, the owners and proprietors of the Amsterdam Hotel, situated on the southwest corner of River and Second streets, and also Adolph Engelking, the proprietor of hotel known as Hotel Hudson, also known as No. 96 Hudson street, for the violation of Section 1 of an ordinance entitled "An ordinance regulating the sale of Mquors in inns and taverns and other places of public entertainment in the City of Hoboken, and to prevent the sale of intoxicating drinks by females therein."

The said Rusack and Koch were arrested on complaint of the Police Department of the city and were tried before Recorder Stanton on the 23d instant, before a jury, and were convicted of violating the provisions of the ordinance above mentioned. They were fined \$50 each, which fine was paid to the Recorder.

Relative to the case of Adolph Engelking, I would state that he was arrested on complaint of the Police Department for violating the provisions of the ordinance above mentioned, and gave bail before the Recorder of the city to appear for trial, which trial has been fixed for Friday, January 30, 1903, at 2 o'clock p. m.

Dated January 28, 1903.

JOHN J. McGOVERN,
License Inspector.

An ordinance regulating the sale of liquors in inns and taverns and other houses of public entertainment in the City of Hoboken, and to prevent the sale of intoxicating drinks by females therein, which was presented, read and passed its first reading as read at a stated session of the Council held on November 26, 1902.

Councilman Greten moved that the ordinance be taken up for its second reading and read:

Adopted.

Councilman Greten then moved that the ordinance pass its second reading as read.

Councilman O'Rourke moved to amend section 3 by inserting the following:

But before any such license shall be granted it shall be the duty of the City Clerk to advertise in at least one newspaper printed and published in the City for at least two weeks the fact that such an application for a license has been made, giving the name of the applicant and the number and location of the place to which such license shall apply, the expense of which advertising shall be paid by said applicant to the City Clerk at the time such application is made, and shall not be considered as part of the license fee.

The ordinance passed its second reading as amended by the following vote:

Ayes—Councilmen Cooke, Fitzpatrick, Hopper, O'Rourke, Voll and Chairman Steil.

Nay—Councilman Greten.

Absent — Councilmen Fox, Hoppe and Schultze.

The following report from the Committee of the Whole, was presented and read.

To the Honorable the Council:

Your Committee of the Whole to whom was referred the charges preferred against Carl Rusack and Henry Koch, for violation of the Ordinance known as the bar-maid ordinance, would respectfully report that they sat on two occasions as such committee and heard the testimony in support of the said charges, and also the testimonw against the charges, and

in favor of the defendants as well as arguments of counsel for the defendant and the Corporation Attorney; and that after hearing said arguments and upon due consideration of all the facts in the case your committee has come to the conclusion, that owing to the fact that proceedings have been taken before the Grand Jury to indict these defendants for the same offence, it would be unjust and improper upon the part of Your Honorable Body at this time to take any action in condemnation of the said defendants, whoch would result in prejudicing their case before the Grand Jury or the courts.

We would therefore recommend that the proceedings taken before this council and now pending before your committee for the revocation of the license of the said Carl Rusack and Henry Koch, be suspended until such time as the case now pending before the courts of this county involoving the guilt or innocence of the said defendants, shall have been heard and determined.

All of which is respectfully suwbtmed.

GEO. H. STEIL,
Chairman.

JAMES LONDRIGAN,
Clerk.

Office of Collector of Revenue,
Hoboken, N. J., Jan. 29, 1903.

To the Hon. Mayor and Council:

Gentlemen—I have this day filed with the City Clerk a statement of the assessment filed in my office September 23, 1898, for the improvement of Park avenue, between Newark and Ferry streets, being for brick sewer, etc., which assessment was confirmed by your Honorable Body on the 13th day of September, 1898

and duly approved by Mayor Fagan, on the 19th day of September, 1898, the total of which assessment amounted to \$4,348.67, and of that amount I have collected with interest, the sum of \$34,348.67, (principal), \$133.67, (Interest) total, \$4,482.34; and turned the same over to Mr. James Smith, Treasurer, City of Hoboken, taking his receipt for same which leaves no delinquency due and owing on said improvement.

Respectfully submitted,
RICHARD BOWES.

Collector of Revenue.

The following communication from License Inspector John J. McGovern, preferring charges against Adolph Engelking for violation of barmaid ordinance, was presented, read and referred to the Committee on Licenses:

Hoboken, February 25, 1903.
To the Honorable the Mayor and Council:

Gentlemen—As License Inspector I desire to prefer charges against Adolph Engelking, proprietor of the Hudson Hotel, located on the corner of First and Hudson streets, the said Adolph Engelking and Bruno Rieger, his bartender, was arrested on the complaint of the police for violating section I, of an ordinance entitled: "An ordinance regulating the sale of liquors in Inns and Taverns and other places of public entertainment in the City of Hoboken and to prevent the sale of intoxicating drinks by females therein." The said Adolph Engelking and Bruno Rieger were tried before Recorder Stanton on the ninth day of February, 1903, and were convicted of violating the provisions of the ordinance above mentioned and were fined \$50.00 each. The counsel for the defendants, after they were convicted, served upon the Recorder a writ of certiorari granted by Justice Swayze, of the Supreme Court, which writ is to review the conviction of the said Adolph Engelking and Bruno Rieger. I understand from the Corporation Attorney that the writ will not be argued before the next term of the Supreme Court.

Respectfully,
JOHN J. McGOVERN,
License Inspector.

Report of Recorder Stanton on the collection of fines for the month of February, 1903, was presented, read and referred to the Committee on Finance and Salaries.

The following map and report from the Commissioners of Assessments, was presented, read and referred to the Committee on Streets and Assessments:

Hoboken, Feb. 25, 1903.

To the Hon. the Mayor and Council:

Gentlemen—We, the undersigned Commissioners of Assessments herewith present to

your Honorable Body our report with the assessment map for the improvement of Jefferson street, between Fourth and Eighth streets.

Being entirely disinterested and not owning any land or real estate along the line of said improvement, we proceeded with the making of this assessment by carefully examining the improvement on the ground and by ascertaining and locating all lands and real estate benefited by the same. The accompanying map and assessment list shows the location and extent of all lands and real estate so benefited, designating each lot or parcel by lot and block number and the names of all owners as far as they could be ascertained.

We have found the entire costs and expenses of said improvement to be as follows:

Contractor's bill	\$9,182 13
Incidental expenses	1,146 24

Total cost \$10,328 37

We have ascertained that the total costs and expenses of said improvement exceed the benefits received by all lands and real estate therefrom to the amount of \$1,066.40 which amount we have assessed upon the city at large the remaining sum of \$9,261.97, we have assessed upon all land and real estate benefited in proportion to benefits received.

We have also considered the question of damages and have concluded that no property was damaged by the making of said improvement and that no person or persons were in any manner entitled to damages on account of the said improvement.

We have examined into the whole matter, and have appointed a time for a hearing for all persons interested at the City Hall, on Thursday, the 19th day of February, 1903, at 7:30 o'clock, P. M., and then and there have heard all objections and claims at subsequent meetings held by us. We have finally completed our assessment as shown on the map and assessment list accompanying this report.

Respectfully,

JAMES HARKSEN,
C. F. GUTH.

Commissioners of Assessment.

TIVY & SMITH,

Engineers in charge.

On motion of Councilman Voll the following communication from the Taxpayers' Association was read:

The Taxpayers Association of Hoboken,
Secretary's Office, 134 Garden Street,
Hoboken, March 9, 1903.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—This association begs to submit to your Honorable Body a proposition in the interest of our city, to wit:

Hoboken now pays about twenty-eight thousand dollars for cleaning the streets and receiving basins and for removing ashes and garbage. This association is prepared to procure a reliable contractor who can furnish all the bonds or surety required, and who will perform all the above work in a satisfactory manner at a cost to the city not exceeding eighteen thousand dollars per year.

This would mean a yearly saving of about ten thousand dollars, which sum includes the going away with a horse, cart and driver now kept by the city, but no longer needed if this proposition is accepted.

The terms of the present contracts are approaching their end, the tax budget is soon to be fixed, and we earnestly pray that your Honorable Body may deem thes our proposition and the saving the result therefrom worthy of serious consideration.

Very respectfully,
The Taxpayers' Association of Hoboken,
L. S. FUGAZZI,
G. PAPE,
Secretary.

Communication from the Fidelity and Casualty Company, relative to condition of a boiler in the City Hall, was presented, read and referred to the Committee on Finance and Salaries.

Communication from G. M. Gest, relative to the construction of conduit system, was presented, read and received.

Communication from the Board of Estimate, requesting the Council to issue a temporary loan bond for the sum of \$35,000, to meet claims

now on file in the office of the Board of Education, was presented, read and referred to the Committees on Finance and Salaries and Public Grounds and Buildings.

The following communication from Chief of Police Hayes, which was presented to the Board of Police Commissioners and referred by that body to the Council, was presented, read and referred to the Committee on Laws and Ordinances:

To the Honorable the Board of Police Commissioners:

Gentlemen—During the past few years numerous second-hand stores have been opened in this city. The police, in searching for stolen property, experience great difficulty in these places, as they keep no books of record and are not subject to the same restrictions as junk dealers and pawnbrokers, while the nature of their business is substantially the same.

I would suggest to your Honorable Body that the Council be communicated with and a request made to pass an ordinance covering this particular line of business, which, I assure you, would be of the greatest assistance to us as a great of stolen property is disposed of in these places.

Respectfully submitted,
PATRICK HAYES, JR.,
Chief of Police.

Resolved, That the Common Council and the City Treasurer be and they are hereby requested to transfer said warrants to the Treasurer of this Board.

Submitted by order of the Board of Education,

W. A. KERR,
Secretary.

The following communication from the Board of Health Commissioners was presented, read and referred to the Committee on Sewers:

Board of Health,
Hoboken, April 21, 1903.

To the Honorable the Mayor and Council of the City of Hoboken.

Gentlemen—At a special session of the Board of Health, held on April 13, 1903, a request of the present condition of the sewers of the city of Hoboken was presented, read and received, and I was directed by the Board to forward a copy of the same to your Honorable Body.

Respectfully,
JOSEPH TUCKER,
Clerk.

April 9, 1903.

To the Honorable Board of Health:

Gentlemen—At the last meeting of your Board the question of the present condition of the sewers of the meadow districts of Hoboken, and what action could be taken by the Board of Health to remedy the unhealthy condition of the meadow districts, was referred to a committee of the Board of which I was a member. In behalf of that committee I beg to make the following report:

All the sewers of what is known as the meadow districts of Hoboken, that is, generally speaking, all that part of the city which is west of Bloomfield or Garden streets, are several feet below high water, and the tidal sewer system which exists to-day in the city is therefore unable to drain and empty the sewers of the meadow districts. Into these sewers flow not only the surface drainage, but also all the sewage from private houses, and to-day they are nearly half filled with filthy mud and solid matter which never flows out of the sewers because the water in the sewers has not sufficient force to force it out. The liquid contents of these sewers flows back and forth in accordance with the tide, and as the sewers fill up the liquid contents are forced back into the meadows and become a nuisance to the inhabitants of the whole city. When

the meadows are filled up the only outlet for these sewers will be the cellars and basements and ground floors of the houses in the meadow districts and as the population of the meadow districts increases and the amount of sewage emptied into the sewers becomes greater, a condition of things will exist which will not only render the meadow districts uninhabitable, but will greatly endanger the health of the whole city. It is a question whether the general health of the city has not already been affected. It is certain that if the present condition of things exists for very much longer that the health of the city will be seriously affected.

In March, 1902, a committee of well-known citizens of Hoboken was appointed to investigate this question. After a careful and thorough investigation of the whole matter, the committee reported to the Mayor and Council that in the opinion of the committee the pumping system is the best and only effective system for this city. At large cost and expense, plans and specifications were drawn up by a competent engineer to carry out a pumping system and these plans and specifications were put at the service of the city. It appeared that a thorough pumping system could be put in at a cost not to exceed \$300,000. Although this report was made to the Mayor and Council many months ago, nothing has been done to carry out in any way the recommendations of the committee.

It is the duty of the Mayor and Council to keep the sewers of the city in repair and properly cleansed, and they have proper legal authority to take whatever steps are necessary to carry any measures that they adopt into effect.

An act of the Legislature of this State, approved March 27, 1893, entitled "An act to provide for the efficient sewerage of lowlands in the cities of this State" (General statutes of New Jersey, page 632, section 844), provides that whenever it shall be represented by the Board of Health of any city to the Common Council or other governing body of any city in this State, wherein any marsh or lowlands are situated, that in the opinion of such Board the system of tidal sewers then in operation in such city does not effectually drain said marsh or lowlands, and that by reason thereof the health of the entire city is impaired or endangered, or likely to be impaired or endangered, unless a more efficient and practical method of draining said marsh or lowlands be substituted for the system then in operation in said city, it shall be the duty of said Common Council or other governing body of such city to inquire into the facts so represented for the purpose of ascertaining the best means of effectually and systematically draining the said lowlands. Under the act the Common

Council has the power to adopt such plans of sewerage as they may deem most efficient in the premises and may erect pumping stations and such other appurtenances as are necessary.

Under a recent supplement to the above act (Laws of 1901, page 155), the Mayor and Council may cause improvement certificates of the city to be issued for the purpose of paying the cost of such work, and improvements to an amount not exceeding three hundred thousand dollars during the first year of the construction of such works and sewerage system.

To provide for the payment of the improvement certificates the act empowers the Common Council to cause bonds to be issued.

I beg to advise you that your Board has power, if it sees fit and proper to do so, to represent to the Mayor and Council of the City of Hoboken that in the opinion of your Board the system of tidal sewers now in operation in this city does not efficiently drain the meadow districts of this city, and that by reason thereof the health of the entire city is impaired or endangered, or likely to be impaired or endangered, unless a more efficient method of draining said meadow districts be substituted for the system now in operation in this city. If such representation is made it then becomes the duty of the Common Council to inquire into the facts so represented for the purpose of ascertaining the best means of effectually and systematically draining the meadow districts of this city.

The above mentioned act is framed in no uncertain terms. It is not made discretionary with the Common Council, but it is made their duty. "It shall be the duty of the said Common Council to inquire into the facts so represented for the purpose of ascertaining the best means of effectually and systematically draining the said lowlands," and further, said Common Council shall decide as to the best method for such drainage.

It is not enough for the Common Council to adopt ways and means of cleaning the sewers of the meadow districts, but it is their duty to adopt an efficient plan for the drainage of the meadow districts. The members of the Common Council are sworn to perform all the duties of their high office. The above law imposes an imperative duty upon them when the facts are represented to them by the Board of Health, and if they fail to inquire into the facts so represented and fail to adopt an efficient plan of drainage for the meadow districts, they must bear the consequences of not fulfilling the solemn obligations imposed upon them by the above law.

With kind regards, I remain,

Yours sincerely,

EDWIN A. S. LEWIS.

The following communication from James F. Minturn, Corporation Attorney, was presented, read and referred to the Committee on Finance and Salaries:

Office of Corporation Attorney,
Hoboken, April 8, 1903.

The Honorable the Council:

Gentlemen—The case before the Supreme Court, involving the constitutionality of the proposed school bond issue, was decided by that Court last week in favor of the city, an dthe opinion which I gave to your Honorable Body upon that subject was upheld by the opinion of Mr. Justice Dixon, who read the opinion of the Court. Messrs. Allan, Sand & Co., the bankers, who have taken the bond issue, are desirous, however, of obtaining the opinion of the Court of last resort, and I am now making an effort to have the case heard by the Court of Errors this month, when an early opinion by that Court may be expected. Should I be unable to procure such a speedy hearing, however, I shall not be able to procure a decision from that Court until June.

Yours truly,
JAMES F. MINTURN,
Corporation Attorney.

The following communication from Corporation Attorney James F. Minturn was presented, read and referred to the Committee on Finance and Salaries:

Office of Corporation Attorney,
Hoboken, March 19, 1903.

To the Honorable the Council:

Gentlemen—As a result of the proceedings instituted by me against Jersey City last fall, to cover the proper proportion of State tax due to this city from the State franchise tax, the attorney for the United Electric Company has paid to the Collector of Revenue of this city, under my direction, the sum of \$865.95, for the original apportionment of tax and also the sum of \$219.04, the result of the reapportionment under the said proceedings. I expect a much larger increase from the reapportionment of the Gas Company's tax.

Yours truly,
JAMES F. MINTURN,
Corporation Attorney.

The following communication from James F. Minturn, Corporation Attorney, was presented, read and referred to the Committee on Sewers:

Office of Corporation Attorney,
Hoboken, April 8, 1903.

To the Honorable the Mayor and Council:

Gentlemen—The suit of the State Board of Health against the City of Hoboken and Town

of West Hoboken came up for hearing last week before Vice-Chancellor Emery in Jersey City.

The testimony taken in the case shows a clear case of nuisance on the part of West Hoboken, in causing the flow of water and sewage, and upon the part of Hoboken for maintaining it there without an outlet.

The case may result in an injunction against both municipalities, compelling West Hoboken to cease its outflow of sewage and compelling this city to maintain a proper outlet for the natural drainage received from the Heights by opening and maintaining a proper sewerage system in the upper section of the city.

Yours truly,
JAMES F. MINTURN,
Corporation Attorney.

The following communication from Comptroller Kaufmann was presented, read and referred to the Committee on Finance and Salaries:

Comptroller's Office,
Hoboken, April 22, 1902.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—Your application of Messrs. Oscar and Frank Frommel I have apportioned the taxes for 1875 and 1876 against lots 26-32, in block 108, as follows:

Lots 26 and 27, block 108, taxes 1875, to pay \$15.42.

Lots 28 to 32, block 108, taxes 1875, to pay \$38.59.

Lots 26 and 27, block 108, taxes 1876, to pay \$13.64.

Lots 28 to 32, block 108, taxes 1876, to pay \$24.10.

Respectfully submitted,
FRED'K KAUFMANN,
Comptroller.

The following report from Tivy & Smith, City Surveyors, on sewer cleaning in the City of Hoboken, was presented, read and referred to the Committee on Sewers:

Hoboken, N. J., April 20, 1903.

To the Honorable the Mayor and Council:

Gentlemen—The following report on the condition of the sewers in the western part of the city, with a view to their thorough cleaning, is submitted at the request of His Honor Mayor Lankering.

The territory embraces all that part of the city to the south and west of the following limits: Garden street, Eleventh street, Park avenue, Twelfth street, Clinton street, and Eighth street.

THE OUTLETS AND MAIN LATERALS.

This district is now drained by the Ferry street and Third street main outlet sewers.

The Ferry street sewer, from the river to Jefferson street, constructed nearly eight years ago, is connected with the old 8'x8" box culverts through the Lackawanna R. R. property to the Morris and Essex basin. The points of connection are near Henderson street, at Park avenue, and at Bloomfield street, and each is provided with a tide gate of the Eddy valve type.

This sewer receives its main supply of drainage through the Jefferson street lateral main box sewer.

Other sewers draining into it are the small overflow pipe from the Willow avenue sewer; the sewer in Park avenue, from Newark to Ferry street; the Garden street sewer, which also connects with Third street sewer; and the Bloomfield street sewer, draining that street to, or beyond, Ninth street. The Ferry street sewer is a capacious outfall and with better connections with lateral sewers would prove of far greater value as an outlet than at present.

The whole length of the Ferry street main sewer, from the tide gate at Hudson street to Jefferson street, is about 2,400'. There is a deposit of mud in this sewer averaging about 12". Near Willow avenue the average depth is about 18".

The Jefferson street main lateral sewer is a box sewer, built about twenty years ago. It

runs from the old box outlet near Henderson street north to Third street, there connecting with the end of the Third street main sewer. From Third street to Fourth street it was continued as a 4'6"x3'9" brick sewer with the intent of extending it as a main beyond that point.

The box sewer collects (through the First street secondary lateral) the sewage of practically the whole district south of Eighth street and west of Willow avenue. Total length up to Fourth street about 2,100 feet. It is in fair condition and has a mud deposit varying from 6" to 18" in depth.

The First street sewer, built the same time as that in Jefferson street, is also a box sewer, 3'6"x4'6" in the clear. It empties into the former from the east and west, terminating at Park avenue and at Marshall street respectively. At present it receives the drainage of the lateral sewers, as far as constructed, from the south at Newark street northerly to Fifth and Eighth streets, and west of Willow avenue. The total length of the sewer is about 2,650 feet. The mud deposits average from 6" to 18" east of Jackson street.

The two western most blocks have a mud depth of 2½ to 3½ feet.

THIRD STREET SEWER.

This outlet drains chiefly the sewers in Garden street, Park avenue, Willow avenue and Clinton street. It shares with the Ferry street outlet, (through its connections with Jefferson street sewer) parts of Clinton, Grand and Adams streets. At high water when the tide gate at the river is closed, it also serves to lead the sewage from Garden street, Park and Willow avenues and Clinton street into the sewers of the Ferry street outlet district.

The part from Willow avenue west was wholly reconstructed about six or seven years ago. Total length west of Garden street about 1,600 feet.

The bottom deposit differs from 6" to over 1 foot.

NEWARK AVENUE SEWER.

The sewer in Newark avenue extends from Park avenue to the westerly boundary line of the city; it was originally a 3'x4' box sewer.

The section from Willow avenue to Jefferson street has been raised and cleaned in 1897. It has again accumulated a mud deposit of between one and two feet, which owing to the low bottom grade can be regarded as permanent.

The brick sewer in Willow avenue, between Ferry street and Newark avenue, and the box sewers in Clinton, Grand and Adams streets are connected with this sewer. The total length, from Park avenue to Jefferson street, is about 1,360 feet.

The section west of Jefferson street is in very bad condition and at present cannot be cleaned. The mud measures between $2\frac{1}{2}$ and 4 feet in depth, reaching up into the manholes so that at times no water can be seen. A new sewer is urgently needed here.

FERRY STREET SEWER.

(From Jackson street to Jefferson street.)

Between the Jefferson street sewer and Madison street there is a box sewer which was raised and cleaned over ten years ago; it was then in fair condition. From Madison to Jackson street there is a $2'6'' \times 3'9''$ brick sewer with connections at Madison, Monroe and Jackson streets. It relieves the First street sewer of part of the sewage of the connecting laterals in the three named streets. It is about 800 feet long. The mud deposit in this sewer averages one foot in the brick part and $2\frac{1}{2}$ feet in the box part.

LATERAL SEWERS.

Garden Street—In the block from Ferry street to Newark avenue there is a $3'9''$ circular sewer which now falls into Ferry street sewer; it also continues west on the southerly side of Ferry street to the $8'6''$ box culvert opposite Park avenue at which point there is an Eddy valve gate. From Newark avenue north the sewer varies in size from four foot circular from Newark street to Third street, to $2'6'' \times 4''$ egg shape up to Ninth street thence $2'6'' \times 3'9''$ to the end at Eleventh street. This part of the Garden street sewer falls into the Third street outlet sewer. Its total length is about 5,250 feet. The average depth of mud is one foot in the part from Ferry to Second street, two feet in the part from Second to Fourth street and one foot from Fourth to Seventh street; beyond this point the sewer is quite clean.

Park Avenue—From Ferry street to Newark avenue there is a new brick sewer, four feet in diameter connecting with the Ferry street sewer. The mud deposit averages one foot.

The block from Newark avenue to First street has no sewer. From First to Second streets the size of sewer is $2'6'' \times 3'$ oval, connecting at Third street with the main sewer. From this point the Park avenue sewer runs north as a $3'6''$ circular to Fourth street, thence as a $2'6'' \times 3'6''$ egg shaped sewer to Eleventh street.

The total length of sewer in Park avenue is about 5,100 feet.

The average depth of the sewer deposit is from one to one and one-half feet, between First and Sixth streets; less than one foot from Sixth to Eighth streets, and over one foot from Eighth to beyond Ninth street, further on the sewer is nearly clean.

Willow Avenue—The sewer from Ferry street to Newark avenue is a $2'6''$ circular sewer inclined towards Newark avenue, but the connection there with the sewer is practically shut off, and the sewer is full to the top. Some relief is afforded by the twenty-inch pipe sewer put in a year ago at the Ferry street end, making connection there with the Ferry street main sewer. In the block from Newark avenue to First street no sewer appears to exist. The section from First street to Third street main is drained by a four-foot circular brick sewer. From the main sewer north to Twelfth street the sewer is $2'6'' \times 4'$ egg on oval shaped, at the latter point it receives the discharge of a $15''$ pipe sewer running from Park avenue and Eleventh street north and west. The total length of the brick sewer in Willow avenue is about 5,500 feet.

The depth of mud in the sewer is $18''$ on an average from First to Third streets and $1'$ and over from Third to Tenth street.

The lowermost block is practically always full of sewage and mud.

Clinton Street—The sewers in this street show a good example of our defective sewerage system. It is a string of boxes alternating with brick sewers of different dimensions.

From Newark to First street is an old box lying at the very low grade and practically not to be gotten at without tearing up the street. It is full of mud and sewage.

From First to Third street there is a box sewer separated by about 50 feet of brick sewer in the intersection of Second street. The sewer in the block between Second and Third streets has been raised and repaired a year ago and is in as fair a condition as any such box sewer may reasonably be expected to be. These two blocks of box sewer are connected with First street and Third street sewers respectively. The deposit averages $18''$ in depth.

In the next block from Third to Fourth streets, there is a $2' \times 6'' \times 3'9''$ brick sewer containing less than one foot of mud. In the blocks from Fourth to Fifth streets there is a tradition of a box sewer.

The drainage of the remaining part of Clinton street is through a three-foot circular brick sewer running from Willow and Fifth street (Willow avenue sewer) west to and up through Clinton street to near Seventh street, thence through a 24-inch circular sewer to the end at Twelfth street.

The total length of all the sewers in Clinton street is about 5,100 feet.

The small sewer from Fifth street northerly is more than half full of deposits which in dry weather is dry and caked in the uppermost block.

Grand Street—The same general remarks

made under Clinton street apply to the sewer in this street as well as in nearly all of those to the west.

Between Newark avenue and First street there is the usual box sewer, from First to Third streets are brick sewers 2'6"x3'9" draining into First and Third street sewers. From Third to Sixth street are box sewers which were raised, repaired and cleaned in 1898 and 1899 and are in fair condition. From Sixth to Eighth street is a box sewer. Total length of sewer in Grand street about 3,550 feet. The depth of mud in these sewers is as follows: From Newark to First full, from First street to Eighth the general depth varies from one foot to 18 inches.

Adams Street—Between Newark and Second street a box sewer, connecting at Newark avenue and First street with these sewers, the one between First and Second street has been raised, repaired and cleaned over ten years ago, but is now in poor condition.

From Second to Eighth street 2'6"x3'9" brick sewers, except in block from Fourth to Fifth street, where it is a 3'6" circular sewer. The total length of sewers is 3,700 feet. The mud depth very as follows: Newark to Second street the boxes are full. From Second to Eighth street there is a deposit of 18 inches.

L Jefferson Street—Under the main lateral sewer the part south of Fourth street has been described. From Fourth to Eighth street the sewer is a 2'6"x3'9" brick sewer.

The total length of the entire Jefferson street sewers is about 3,900 feet. The depth of mud varies as follows: From Newark to Fourth streets, from 6 inches to 18 inches, from Fourth street north it is 18 inches.

Madison Street—From Ferry to First street there is an old box sewer which is remembered only by few of the older citizens; there are no manholes and therefore no means of entering it. From First north to Fifth street a distance of 1,800 feet the sewer is 2'6"x3'9" and of brick. It connects into the First street sewer.

The depth of mud in this sewer measures between one and two feet deep.

Monroe Street—The only street west of Willow avenue having a brick sewer for the whole length from Newark avenue to Eighth street, a distance of about 4,050 feet. It connects at Ferry street and at First street with the outlet sewers. This sewer shows a less average depth of mud than any other meadow sewer, nowhere exceeding 18 inches in depth, the average being about one foot.

Jackson Street—From Newark to First street, a length of about 990 feet there is the ordinary box sewer connecting with the sewers at Ferry street and First street. It is not in the best condition and over one-half full of

mud. From the First street sewer north to Fifth street the sewer is 2'6"x3'9" of brick. The deposit of mud measures between Newark and First street over 2½ feet. Between First and Fifth street uniformly about two feet.

Harrison Street—Only one block between First and Second street, has a sewer which is 2'6"x3'9" of brick. It is 500 feet long. The depth of mud here is 18 inches.

Other Streets—There are a few small sewers in different streets which occasionally become clogged with mud, but which cannot be cleaned because of their size and the absence of openings to the street. An example of this kind is the pipe in Eighth street between Garden street and Park avenue.

A summary of the foregoing data on the condition of the sewers shows that they may be broadly divided into those which can be cleaned and those which cannot. Under the latter head may be set down the box sewers in Newark avenue, west from Jefferson street, Madison street between Ferry and First street, Clinton street between Fourth and Fifth street; there may also be added the boxes in Clinton, Grand and Adams streets, between Newark and First street, and in Adams street, between First and Second street, which are almost as bad as the former named. None of these sewers have any foundation or regular grade. The boxes in Jackson street south of Ferry street and in Clinton street, between First and Second street also, will offer some difficulties to cleaning.

The small sewer in Clinton street north from Fifth street to Twelfth street, may offer obstacles to prevent its effective cleaning. There are several sewer mud excavating contrivances but with the careless manner with which house connections are often inserted into sewers, the use of such apparatus is barred.

This is a common fault which calls for a remedy. Not long ago, in repairing a certain sewer, an iron house connection pipe was found projecting two feet into the sewer, more than half way across. Other examples might be given. Another difficulty is the crossing of the sewers by water and gas mains which form partial dams, obstructing the flow and collecting deposits around them.

To clean thoroughly the other sewers, mainly of brick and large enough to permit the entrance of workmen, temporary drains must be built at certain distances apart, the water pumped out in the section dammed off and all the mud and sediment of all sorts cleaned out by buckets, scoops, pushers and brooms. Steam pumps will be needed as well as hoisting apparatus with blocks and fall for raising the excavated material, quickly and cleanly, and dumping it into carts which must be

tight to prevent soiling the street. The ordinary pall and rope device will not be adequate for the purpose.

The following sewers may be cleaned properly, (excepting perhaps Clinton street, between Fifth and Twelfth streets):

Garden street, from Ferry to Seventh street, about 3,250 feet.

Park avenue, from Ferry to Ninth street, about 4,300 feet.

Willow avenue, from Ferry to Eleventh street, about 4,600 feet.

Clinton street, from First to Fourth street, about 1,400 feet.

Clinton street, from Fifth to Twelfth streets, about 3,550 feet.

Grand street, from First to Eighth street, about 3,175 feet.

Adams street, from Second to Eighth street, about 2,750 feet.

Jefferson street, from end to end, about 3,900 feet.

Madison street, from First to Fifth street, about 1,800 feet.

Monroe street, from end to end, about 4,050 feet.

Jackson street, from end to end, about 2,800 feet.

Harrison street, from First to Second street, about 500 feet.

First street, from end to end, about 2,650 feet.

Ferry street, from Jefferson to Jackson street, 800 feet.

Ferry street main, from Hudson to Jefferson street, 2,400 feet.

Third street, from Bloomfield to Jefferson street, 1,850 feet. Total, about 43,775 feet.

Which, at the rate of say, \$0.35 per foot, will cost to clean, about \$16,721.00.

Respectfully submitted,

TIVY & SMITH,
City Surveyors.

Gentlemen—I herewith inclose you twelve claims against the City of Hoboken, being claims of Margaret O'Neill, executrix of the estate of Charles H. O'Neill, deceased, which claims are for \$1,712.06 each.

These claims are based upon improvement certificates as set forth in the claims. Interest has been figured up to April 25, 1903.

Some time last summer I forwarded to you similar claims for Mrs. O'Neill, and to my letter accompanying the same, I attached a copy of one of the certificates upon which these claims are based. No action was ever taken upon the claims which I presented last summer, and I herewith present them again and request that you take action upon the same without delay.

Yours respectfully,
LEON ABBETT.

Attorney of Margaret O'Neill, Executrix, etc.

The following communication from His Honor Mayor Lankering was presented, read and referred to the Committee on Finance and Salaries:

Mayor's Office,
Hoboken, May 13, 1903.

To the Council:

Gentlemen—Complaints are continually reaching me from all parts of the city and also from the Chief of Police in regard to the indifferent and dilatory manner in which Mr. Vaatcky, the contractor for the removal of dead animals, performs his duty.

In order to insure the proper and prompt removal of the animals the contractor should be paid monthly, instead of quarterly, nad be required to produce a certificate from the Chief of Police and the Board of Health that he has properly performed his duty, before his claim is passed upon by your Honorable Body, and a provision to that effect should be inserted in his contract.

Respectfully,
A. LANKERING,
Mayor.

The following communication from His Honor Mayor Lankering was presented, read and referred to the Committee on Streets and Assessments:

Mayor's Office,
Hoboken, May 13, 1903.

To the Council:

Gentlemen—It having been brought to my attention that the men employed by the contractor who removes the ashes and garbage are absolutely reckless and indifferent in the manner of performing their work, with the result that the cans and receptacles for the ashes are often smashed and unnecessarily damaged, and the contents recklessly strewn about the streets, to the detriment of the convenience and health of our citizens, I feel it incumbent upon me to call your attention to this condition with the hope that with the awarding of the new contract it will be reformed. Under our Charter and ordinances the Street Commissioner is empowered to supervise the condition of our streets, and I would suggest that in the performance of this duty the ashes and garbage contractor be directed to produce from him a certificate before each monthly payment that the work of removing the ashes and garbage has been done according to contract, and I would suggest that a provision to that effect be inserted in the contract.

Such a provision and requirement will, in my judgment, result in a proper and careful performance of the city work.

Respectfully,
A. LANKERING,
Mayor.

The following communication from Corporation Attorney James F. Minturn was presented, read and referred to the Committee on Sewers:

Office of Corporation Attorney,
Hoboken, May 12, 1903.

The Honorable the Council:

Gentlemen—A petition is now before your Honorable Body from the Town Council of West Hoboken, praying for the privilege of obtaining an outlet through this city for their sewage to the Hudson River. This application is the result of a suit now pending in the Court of Chancery by the State Board of

Health against West Hoboken and this city, to compel the abatement of a nuisance maintained by both municipalities at the foot of Fourteenth street, in this city.

I am of the opinion that the Court will direct this city by injunction to accommodate West Hoboken by enabling it to drain through Fifteenth street to the river. This condition will revive at once the question of properly draining the meadows in conjunction with the question of disposing of the West Hoboken sewage, and I would suggest to your Honorable Body the propriety of discussing the question in connection with the West Hoboken Committee at your earliest convenience, with the view of finally relieving it. At the hearing of this case, I suggested to the West Hoboken authorities that a consolidation of the two municipalities would make the solution of sewers, viaducts and other like questions of comparative ease and of mutual interest, and I received the assurance from these officials that ninety per cent of the people of West Hoboken favored consolidation with Hoboken.

In view of this fact, I would suggest that your Honorable Body appoint a Committee to meet a similar Committee from West Hoboken for the purpose of presenting the question of annexation to the people of the two municipalities, as required by law, at the next election. The annexation of West Hoboken will probably be followed by that of Weehawken, and as both municipalities are naturally and geographically related to Hoboken, and as this city has reached its limit of growth within the present boundaries, pride in our future growth as a city would seem to me to demand early consideration of this purpose.

Yours truly,
JAMES F. MINTURN,
Corporation Attorney.

The following report of James H. Londrigan, City Clerk, was presented, read and referred to the Committee on Licenses:

Office of City Clerk,
Hoboken, May 6, 1903.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—I most respectfully report that from May 5, 1902, at 12 m., to December 27, 1902, at 12 m., there was collected for house of public entertainment licenses, transfers, peddlers, and miscellaneous licenses the sum of \$83,130 69

The following communication from Albert Burfeind, Secretary of the Board of Tax Commissioners, enclosing resolution adopted by said Board, was presented, read and referred to the Committee on Laws and Ordinances, in conjunction with the Corporation Attorney:

Hoboken, May 27, 1903.

To the Honorable the Mayor and Council:

Genlemen—The enclosed resolution was adopted by the Board of Tax Commissioners at a meeting held on Tuesday evening, May 26, 1903, and a copy directed to be forwarded to your Honorable Body.

Respectfully,
ALBERT BURFEIND,
Secretary.

Whereas, The City Charter provides that this Board shall organize on the second Monday in May and complete its labors on or before the first day of June in each year, and

Whereas, In the opinion of the members of this Board the time allotted in which to transact business is too short to allow a careful

investigation of the requirements of the various departments which is necessary if fair and reasonable appropriations are to be made in each case, and

Whereas, The members of this Board being elected in November of each year, there is apparently no reason why the Board could not be organized a month or two earlier than at present, providing the necessary amendment to the Charter was made; therefore be it

Resolved, That the Mayor and Common Council be requested to do or cause to be done such acts as will permit of the organization of the Board of Tax Commissioners at as early a date previous to that now fixed as will permit of the transaction of its bus'ness in a thorough and satisfactory manner; and

Resolved, That a copy of these preambles and resolutions be "certified" to the Honorable Mayor and Common Council.

The following communication from City Clerk Londigan, submitting annual report of Chief of Police Hayes, which was presented to the Board of Police Commissioners, May 25, 1903, and the Clerk directed to forward a copy of same to your Honorable Body:

Office of City Clerk,
Hoboken, May 25, 1903.

To the Honorable the Common Council of the City of Hoboken:

Gentlemen—At a stated session of the Board of Police Commissioners, the following report was presented, read and received, and I was directed to forward a copy of same to your Honorable Body.

Yours respectfully,
JAMES H. LONDRIGAN,
Clerk Board of Police Commissioners.

To the Honorable Board of Police Commissioners:

Gentlemen—I herewith submit to you the annual report of the Police Department for the year ending April 30, 1903.

Although no disturbance of a serious nature has occurred during the past year, crime, I regret to say, has apparently been on the increase.

During the past five months of my administration the members of my command have displayed the greatest diligence and activity in the performance of their duties, the number of arrests being almost equal to the number of the preceding seven months. In comparison to the preceding year, there were 429 more arrests this year.

Juvenile delinquency, as the tabulated list will illustrate, shows an alarming increase, the police having arrested no less than 191 children under the age of 15 years for all character of crime, from malicious mischief to

grand larceny. Many philanthropic efforts are being made to check this depravity among the young by societies organized for that object, and it is a lamentable fact that the situation does not amend.

Gambling of every description has received the careful consideration of the police, particularly policy, and the long and relentless warfare instituted against the last named infamy has been productive of the very best results, and the game has abandoned the city. I can assure you, not to return.

Another evil which has given us continual trouble, the barmaid industry, has been practically eradicated. Frequent raids, in conjunction with the heavy fines subsequently imposed by the Recorder, have had a salutary effect, and compelled the proprietors of these nefarious resorts to retire from business, or keep within the scope of the law. The moral tone of the city has improved, and by the constant surveillance which we shall continue to maintain over all resorts of questionable repute, the stigma under which the city has long rested will eventually be removed.

Permit me, gentlemen, to call your attention to a subject which, in my judgment, requires your immediate action. It is the deplorable condition of the cells at Police Headquarters. There is no language strong enough to fittingly express the situation. Foul and noxious odors pervade the atmosphere at all times, and on occasions when the cells are full, the air is execrable. We are often compelled to send for medical assistance to aid unfortunates who have succumbed to their loathsome surroundings. The Board of Health at a recent meeting, in forcible phraseology, expressed their sentiments regarding our lock-up, and even intimated future drastic proceedings. No fault can be placed to the City Prison Keeper, who is assiduous and indefatigable in his endeavors to relieve the situation. It is simply the natural result of an unsanitary site.

The discipline and deportment of the members of the Department are exceptionally good. The officers and men have zealously executed the many innovations which I instituted at the beginning of my administration, and altogether are displaying greater efficiency and attention to duty than heretofore. There is, however, room for still further improvement.

Numerically, the police force is in poor condition. We are sadly in need of more patrolmen, in consequence of the rapid growth of the city.

In conclusion, I offer you thanks for the aid and encouragement you have extended to me in my efforts for the betterment of the Department, and also to Recorder Stanton for the assistance and support given to me in the enforcement of the criminal laws.

Respectfully submitted,
PATRICK HAYES, JR.

The following communication from License Inspector McGovern was presented, read and referred to the Committee on Licenses:

Hoboken, May 27, 1903.

To the Honorable the Mayor and Council:

Gentlemen—As License Inspector, I desire to prefer charge saagainst Harry Borland, the proprietor of the saloon, No. 84 Garden street, said Harry Borland and his agent were arrested by the police of this city for violating the ordinance entitled "An ordinance regulating the sale of liquors in inns and taverns and other houses of public entertainment in the City of Hoboken, and to prevent the sale of intoxicating drinks by females therein," and on the 25th day of May, 1903, they both pleaded guilty of violating the said ordinance and were fined \$50 each by the Recorder of the City of Hoboken.

JOHN J. McGOVERN,
License Inspector.

The following communication from License Inspector McGovern was presented, read and referred to the Committee on Licenses:

Hoboken, May 27, 1903.

To the Honorable the Mayor and Council:

Gentlemen—As License Inspector, I desire to prefer charges against the saloon known as No. 82 River street, inasmuch as the agent of the said saloon, R. Weissbach, was convicted

by a jury before the Recorder of the city of Hoboken for violating an ordinance entitled "An ordinance regulating the sale of liquors in inns and taverns and other houses of public entertainment in the City of Hoboken, and to prevent the sale of intoxicating drinks by females therein," on the twenty-second aay of May, 1903.

JOHN J. McGOVERN,
License Inspector.

The following communication from J. P. Laverty, Clerk of the Recorder's Court, was presented, read and referred to the Committee on Licenses:

Recorder's Court,
Hoboken, May 27, 1903.

To the Hon. the Mayor and Council:

Gentlemen—In the Recorder's Court, May 22, Richard Weissbach was charged with violating a city ordinance known as the "barmaid ordinance," at the saloon 82 River street, and was tried by a jury composed of twelve representative citizens who rendered a verdict of guilty against the said Richard Weissbach. A fine of fifty dollars, which was imposed by Recorder Stanton, was duly paid.

A request was made by the said "jury" to forward to the Mayor and Council the following copy of the "verdict":

"Verdict"—We find the accused Richard Weissbach, guilty, with recommendation to the Mayor and Council to not enforce section 20 of the liquor ordinance, approved March 26, 1903 in the present instance, as it is a first offense. And we further recommend to the Mayor and Council to strictly enforce the liquor ordinance hereafter in all cases.

Signed, A. E. McHALE,
Foreman of Jury.

Very respectfully submitted,

J. P. LAVERTY,
Clerk Recorder's Court.

The following communication from the Trustees of the Free Public Library was presented, read and referred to the Committee on Public Grounds and Buildings, in conjunction with the Corporation Attorney:

Free Public Library,
Hoboken, N. J., May 27, 1903.

To the Honorable the Mayor and Council:

Gentlemen—At a regular meeting of the Trustees of the Free Public Library, held on Tuesday, May 19, 1903, the undersigned were authorized and directed to request from the Mayor and Council a deed conveying the library property on Fifth street and Park avenue to the Board of Trustees of the Free Public Library.

The title is now in the Mayor and Council, whereas the law under which the property was acquired and the building constructed and under which we are operating provides that the Library Trustees shall "hold in trust and manage all library property." Should the title continue in the Mayor and Council the Trustees cannot comply with the requirements of the act to "hold in trust and manage all library property." In order that this question of title may be cleared up we would request your Honorable Body to direct that the deed of trust, as provided in the act of 1884, be executed and delivered to our Board.

We have the honor to remain,

Respectfully yours,
LLOYD H. NETTLETON,
WM. J. O'TOOLE,
Committee.

Attest:

THOS. F. HATFIELD, Secretary.

The following communication from James F. Minturn, Corporation Attorney, was presented, read and referred to the Committee on Streets and Assessments:

Office of Corporation Attorney,
Hoboken, N. J., May 27, 1903.

To the Honorable the Mayor and Council:

Gentlemen—With respect to the communication of the taxpayers and citizens of the Fourth Ward for the opening of Clinton street, between Newark and Ferry streets, which has been submitted to me for my opinion, I would say that under our existing law there is nothing which would give the Council at this time the power to open the said street.

If the property owners desire to open the street they could petition the Council to do so and convey the necessary land for the purpose which in law would amount to a dedication of land thus conveyed for a public street. Without such conveyance and in the absence of any specific act of the Legislature, the Council cannot open the street.

There is nothing in the Charter of the city which would enable the Council to make this improvement.

An act of the Legislature is necessary.

Yours truly,
JAMES F MINTURN,
Corporation Attorney.

The following report from Tivy & Smith, City Surveyors, on the repaving of Willow avenue, between First and Second streets, was presented, read and referred to the Committee on Streets and Assessments:

Hoboken, N. J., May 27, 1903.

To the Honorable the Mayor and Council:

Gentlemen—We hereby report to your Honorable Body that Mr. Thomas Cavanagh, the contractor on the repaving of Willow avenue, be-

tween First and Second streets, has completed his contract and that said work is now ready for your further action.

Respectfully,
TIVY & SMITH,

The following communication from the various Boat Clubs was presented and read:
To the Mayor and Council of the City of Hoboken:

Gentlemen—The undersigned boat clubs located at the Hudson Square Park basin, beg to call your attention to the condition of the basin. The basin is filled up with canal boats and lighters which makes it impossible for us to gain access to the river, especially on

Sundays when crews desire to row on the river. These boats are brought to the basin in a good many cases simply to save the expense of dockage which they would have to pay if they were placed in a private basin or dock, and use the public water front in the basin without the authority of the city and without paying anything for the privilege. These boats are owned by non-residents and are brought to the basin which they block, leaving no space for the entrance or passage of the boat clubs in the basin, although there would be sufficient room for all if the canal boats and lighters were properly placed with that end in view.

The combined membership of the clubs represent a large part of the athletic young men of the city, whose sole pleasure and exercise is in rowing and swimming. Hoboken holds the reputation of greater interest in rowing than any city of its size in the United States and that is due to the facilities which have been afforded in that direction.

If these facilities should be curtailed, the prestige which Hoboken has held on the water will be lost. We hardly deem it necessary to call your attention to the fact that rowing is one of the best forms of physical exercise for the development of young men, and the boat clubs have always been liberal in the encouragement not only of rowing and swimming, but in all kinds of athletics in this city.

We therefore respectfully request you to take such action in the premises as will remove the conditions complained of and cause the canal boats and lighters that have a right to dock or moor in the basin to leave a space large enough for the passage of our boats.

Summons on contract. Margaret O'Neill, executrix, etc., vs. The Mayor and Council of the City of Hoboken. Returnable June 18, A. D.

1903, was presented, read and referred to the Committee on Finance and Salaries, in conjunction with the Corporation Attorney.

The following communication was presented, read and referred to the Committee on Finance and Salaries:

To the Honorable the Mayor and Council of the City of Hoboken:

On the twenty-fifth day of May, 1903, we recovered a judgment in the case of Max C. Schilling against the Mayor and Council of the City of Hoboken, for \$252 debt and \$16.50 costs of suit. The action was brought merely to determine who was entitled to the \$252 deposited with the City Clerk.

We therefore request your Honorable Body to order a warrant drawn to our order for the amount of the judgment and costs.

Respectfully yours,
WELLER & LICHTENSTEIN.

Dated June 9, 1903.

The following communication from Edward Russ, of the Board of Trustees for Industrial Education of the City of Hoboken, N. J., was presented and read:

Board of Trustees for Industrial Education of the City of Hoboken, N. J.

Hoboken, N. J., June 10, 1903.

Honorable Mayor and Council of the City of Hoboken, N. J.:

Gentlemen—Some years ago Mrs. Martha B. Stevens, during her lifetime, together with the late John Stevens and Mr. Richard Stevens, donated the sum of \$26,000 towards the erection of a building which would house both the Free Library and the Manual Training School.

The property was purchased in the name of Mrs. Martha B. Stevens and by her conveyed to the city. This money was advanced by her and the purchase made with part of it, and its subsequent conveyance to the city upon the understanding that the Manual Training School should perpetually have a home to prosecute its work and this character of occupation under the city should be specified, in writing, either by resolution, ordinance, lease or instrument of letting. This has never been done.

Your files will show that I called attention to this matter more than a year ago, but that no action has ever been inaugurated. I understand that the Free Library Trustees have made application to your Honorable Body to have the title to the property which was conveyed to the city, in trust, for certain purposes, vested in the Free Library Trustees, and this is a matter upon which we want to be heard.

We would be pleased to meet your Honorable Body in open meeting, or your proper committee, to discuss this matter, at any time that you may suggest, and hope that you will not take any action on the communication of the Free Library Trustees, until we have been heard.

Most respectfully yours,

EDWARD RUSS.

President.

On motion of Councilman Hoppe the communication was received and the Clerk directed to notify the Trustees of the Free Public Library and the Board of Trustees for Industrial Education of the City of Hoboken, N. J., to appear before the Committees of the Council on Tuesday, June 23, 1903.

Adopted.

The following communication from Chief of Police Hayes was presented, read and referred to the Committee on Lamps and Gas:

Hoboken Police Department,

Patrick Hayes, Jr., Chief.

Hoboken, N. J., June 1, 1903.

Mayor and Council, City of Hoboken:

Gentlemen—Appended you will find a list of electric lights reported as burning by the officers of this department from May 1 to 31, 1903.

Respectfully,
PATRICK HAYES, JR.,
Chief of Police.

The following communication from Board of Tax Commissioners, returning report of Board of School Estimate on amount of moneys needed for the current fiscal year forwarded to said Board by the Council, was presented and read:

To the Honorable the Mayor and Council:

Gentlemen—at a meeting of the Board of Tax Commissioners held on Friday evening, May 29, 1903, the following preambles and resolutions were read and adopted:

Whereas, The Common Council of the City of Hoboken have forwarded to the Board of Tax Commissioners a copy of the estimate sent them by the Board of School Estimate of the amount necessary for the current expenses of the public schools for the ensuing year, and

Whereas, Section 75, Article VI, of an act entitled "An act to establish a system of public instruction," approved March 26, 1902, provides that the Board of School Estimate shall consist of two members of the Board of Education, and the Common Council, Board of Finance or other body in such city having the power to make appropriations of money raised by taxes in said city shall appoint two of its members which persons so appointed, together with the Mayor or other chief executive of the city shall constitute a board known as the "Board of School Estimate" of said school district, and

Whereas, Section 77, Article VI, of the same act provides that said Board of School Estimate shall on or before the first day of June make two certificates of the amount necessary to be appropriated for the public schools for the ensuing school year, one of which certificates shall be delivered to the Board of Education of said school district and the other to the Common Council, Board of Finance or other body in the city having power to make appropriations of moneys raised by taxes in such city; and

Whereas, The Common Council have appointed two of its members to act on the Board of School Estimate, thereby assuming the power to make the appropriation for school purposes; therefore be it

Resolved, That the Board of Tax Commissioners most respectfully return to the Common Council the estimate of moneys necessary for the public schools; and be it further

Resolved, That a copy of these preambles and resolutions be forwarded to the Common Council.

Respectfully submitted,
ALBERT BURFEIND,
Secretary.

Councilman O'Rourke moved that the communication be received and the report of the Board of School Estimate be included in the tax budget, and the Corporation Attorney be directed to insert the same in the tax ordinance.

Adopted by the following vote:

Ayes—Councilmen Cooke, Fitzpatrick, Fox, Greten, Hoppe, Hopper, O'Rourke, Schultze, Voll and Chairman Steil.

Nays—None.

Absent—None.

The following communication from Patrick T. Plunkett was presented, read and referred to the Committee on Sewers:

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—I, the undersigned, would kindly beg your Honorable Body to withdraw my bid on the improvement of box sewer in Grand street nad Fifteenth street, on account of a mistake I made on the same.

Hoping your Honorable Body will grant my request, I will ever pray, etc.

PATRICK T. PLUNKETT,

348 Webster Ave.,
Jersey City.

The following communication from Arthur Seitz was presented, read and referred to the Committee on Sewers, in conjunction with the Committee on Public Grounds and Buildings:

Hoboken, June 24, 1903.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—The undersigned respectfully petitions your Honorable Body for permission to make the following sewer connections:

At Eighth and Hudson streets, opposite the entrance to Castle Point, I wish to open up the street and connect a 24-inch earthen sewer with the present brick sewer in Hudson street.

At Tenth and Hudson streets, I wish to open up the street and connect a 24-inch earthen sewer with the present brick sewer in Hudson street.

The new sewer which I propose to build, and which I desire to connect with the Hudson street sewer, will extend from Eighth and Hudson streets, running east to a new street to be called Castle Point terrace; thence north to the Elysian Park; thence west along the southerly line of Elysian Park to Hudson street.

The new street, when completed, to be dedicated to the city as a public street.

I agree to have the connections made under the supervision of your Committee and also the Street Commissioner, and also agree to restore the street and park to as good a condition as it is at present.

Respectfully yours,
ARTHUR SEITZ.

The following communication from Richard Stevens, attorney for Caroline B. Alexander, was presented, read and referred to the Committee on Public Grounds and Buildings:

Office of

Hoboken Land and Improvement Company,
Hoboken, June 24, 1903.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—I am willing to sell to the city of Hoboken the following described plot of land, to be used as a public park:

Beginning at a point 533.53 feet easterly at right angles from the easterly line of Hudson street, and 476.50 feet southerly at right angles from the southerly line of Eleventh street extended, and which point is also in the southerly line of Tenth street extended, and running thence (1) westerly along the southerly line of Tenth street extended 333.53 feet to a point in the westerly line of River street extended; thence (2) northerly along the westerly line of River street extended and distant 200 feet easterly at right angles and parallel to the easterly line of Hudson street, 245.04 feet to a point in the southerly line of property

conveyed by Martha B. Stevens to the Hoboken Railroad, Warehouse and Steamship Connecting Company by deed dated January 3, 1898, and recorded in the Register's office for Hudson County, N. J., in book 691 of deeds, page 515, etc.; thence (3) southeasterly in a straight line and along the property of the Hoboken Railroad, Warehouse and Steamship Connecting Company 108.52 feet to a point of curve 298.37 feet easterly at right angles from the easterly line of Hudson street and 277.29 feet southerly at right angles from the southerly line of Eleventh street extended; thence (4) still along the property of the Hoboken Railroad, Warehouse and Steamship Connecting Company and curving to the right on a curve with a radius of 559.44 feet, 245.08 feet to a tangent point 491.13 feet easterly at right angles from the easterly line of Hudson street and 425.46 feet southerly at right angles from the southerly line of Eleventh street extended, and thence (5) in straight line in a southeasterly direction 66.36 feet to the point or place of beginning, for the sum of twelve thousand dollars (\$12,000).

Subject to certain reservations as to laying and maintaining certain pipes and poles.

The above offer to hold good till August 1, 1903.

Yours truly,
CAROLINE B. ALEXANDER,

per
RICHARD STEVENS,
Attorney.

The following communication from Chief of Police Hayes was presented, read and referred to the Committee on Public Grounds and Buildings:

Hoboken, June 24, 1903.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—I wish to call your attention to the unsafe condition of the flooring of the patrol wagon house. The beams supporting the floor have rotted and considering the immense weight it is compelled to bear it is marvellous that a serious accident has not occurred heretofore. I hope that your Honorable Body will give this matter your immediate attention and cause the necessary repairs to be made without delay.

Respectfully submitted,
PATRICK HAYES, JR.,

Chief of Police.

The following communication from Corporation Attorney Minturn was presented, read and referred to the Committee on Public Grounds and Buildings:

Office of Corporation Attorney,

Hoboken, June 24, 1903.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—I am in receipt of the communication to you of the Free Public Library Board, requesting a conveyance by the Mayor and Council of the library property to that Board.

To properly comprehend this situation your Honorable Body must be informed of the history of this building and the events leading to its erection. On March 26, 1895, Richard Stevens, Esq., in a communication to Edward Russ, Esq., as Chairman of the Committee on Sites for a free library, proposed, in writing, that he, his mother, the late Mrs. M. B. Stevens, and Mrs. John Stevens, would donate in land or cash \$26,000 toward the erection of a free public library building "by the free public library trustees," provided that accommodation be furnished for the industrial education department of the city, and provided that the city would contribute the balance required for the erection of such a building. In pursuance of this offer, the library board of March 26, 1895, appointed a special committee of three to confer with the Mayor and Council, with a view to the prompt realization of the proposed scheme. The report of this Committee was favorable.

The site was purchased by Mrs. Stevens for the sum of \$17,719.40, and on January 7, 1896, a deed for the same to the Mayor and Council was delivered and recorded. This deed contained no restrictions, limitations and provisos. Thereafter the building was erected at a cost of \$60,230.60, and of this amount \$8,250.60, the balance of the Stevens donations above the cost of the land, was paid to the Free Public Library Trustees on January 8, 1896. The cost of the building beyond that donation was met by an issue of bonds by the Mayor and

Council, designated "Free Public Library Bonds." The building was erected under the direction of the Free Library Trustees, the advertisements were published by them and the bids for construction received by them.

The Free Library Trustees and the Trustees of the Industrial School have occupied the building jointly since its completion, under an arrangement between the respective Boards. There can be no question as to the intention of the Stevens donors, as expressed in this letter of March 26, 1885, that the building was to be a free public library building and that it was to be erected by the trustees of the library with accommodations for the industrial school, and the only limitation as to its use was stated to be "that the deed of conveyance shall contain such restrictions as will insure the accomplishment of the above-named objects." Mrs. Stevens did not, in her conveyance to the city, express any limitation or restriction or indicate in any manner the object of the Stevens donation, and the inference is therefore a proper one that "the deed of conveyance" containing restrictions to which she referred in her communication was one to be made and executed by the Mayor and Council to the Free Public Library Board. No other rational construction can be placed upon her proposal in view of her absolute deed to the city nearly one year later, and the further fact that the entire work of selection of site and construction and supervision of the building was in the hands of the Library Board would indicate that the building was to be primarily and essentially as Mr. Stevens indicated in his letter, "A Free Public Library Building."

The city, therefore, is legally in the position of a trustee holding specific property for a definite and ascertained purpose, and the only question which can arise is whether the trustee for whom the property is held has the legal capacity to take it under conveyance by the city.

The Free Public Library is a corporation made so by the act of April 1, 1884, under the title of "The Trustees of the Free Public Library of the City of Hoboken," with all the usual powers incident to public corporations. Under the provisions of the fifth section of the act it has power to hold in trust and manage all the property of said library; to rent rooms and when proper to construct buildings for the use of the said library, and generally to do all things necessary and proper for the establishment and maintenance of the free public library. Under this provision it has power to own real estate and construct buildings, and it is made its duty "to hold in trust and manage all the property of said library."

It can make no difference in the result that

the bonds issued by the Mayor and Council to erect the building are still outstanding. The bonds of the city are not a lien against the buildings, for the construction of which they were issued. They are part of the general city indebtedness and are denominated "Free Public Library Bonds," School Bonds, Fire House Bonds, etc., for the general convenience of the fiscal officers of the city. Under the present school law the school buildings are the property of the Board of Education, whilst the cost of erection remains a city indebtedness. In like manner the water bonds are a city indebtedness while the maintenance, revenue and operation of that department are entirely distinct and under a separate corporation. In any event, such buildings are always city property and the fact that the legislature has intrusted their management and control to a distinct and subordinate corporation does not change the fact that they are held in trust for the people.

A deed, therefore, should be ordered to be executed by his Honor the Mayor on behalf of the city, conveying to the Library Board the premises in question, with a provision therein that the Industrial School shall be given proper accommodation.

Yours truly,
JAMES F. MINTURN,
Corporation Attorney.

Councilman Schulze moved that the Chair appoint two members of the Council with himself to act as a Committee to confer with like Committees of the Board of Free Public Library Trustees and the Board of Industrial Education, relative to the Free Public Library building.

Adopted.

The Chair appointed as such Committee, Councilmen Schulze and Hoppe.

The following communication from Corporation Attorney Minturn was presented and read:

Office of Corporation Attorney,
Hoboken, June 24, 1903.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—Relative to the petition of citizens and property owners concerning the proposed wood yard building of Isaac Ingleson, on Jefferson street, and requesting your Honorable Body to prevent its rebuilding, I would say that your Honorable Body does not possess that power. If Mr. Ingleson will comply with the fire and building laws in erecting his building he may erect such building as will best suit his business, nad your Honorable Body possesses no legal authority to further restrict him.

Yours truly,
JAMES F. MINTURN,
Corporation Attorney.

The following communication from Corporation Attorney Minturn was presented and read:

Office of Corporation Attorney,
Hoboken, June 24, 1903.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—I am in receipt of your resolution presenting for my consideration the resolution of the Tax Commissioners in favor of an extension of the time within which they shall make their report. There seems to be no question that such a act is necessary to enable that Board to properly perform their duties.

And I would suggest that at the next session of the legislature, which may be this summer, in the event of the primary act proving to be unconstitutional, an act be drawn and presented for passage containing the necessary extension of time.

Yours truly,
JAMES F. MINTURN,
Corporation Attorney.

The following communication from James Smith, Treasurer, was presented, read and referred to the Committee on Finance and Salaries:

Board of Trustees for Industrial Education of the City of Hoboken.
Hoboken, June 23, 1903.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—As per appropriation of the Board of Tax Commissioners of the City of Hoboken, kindly have warrant drawn to the order of James Smith, Treasurer, in the sum of five thousand dollars, to meet the current expenses of said Board for the year 1903-4.

Yours respectfully,
JAMES SMITH,
Treasurer.

The following communication from James Smith, Custodian of School Moneys, enclosing resolution from the Board of Education, was presented, read and referred to the Committee on Finance and Salaries:

Hoboken, June 23, 1903.
To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—Herewith please find communication received from the Board of Education.

Yours respectfully,
JAMES SMITH,
Custodian of School Moneys.

Office of Board of Education,
Hoboken, June 23, 1903.

James Smith, Esq., Custodian of School Moneys, District of Hoboken, County of Hudson:

Dear Sir—At a stated session of the Board

of Education, held on Monday evening, June 15, 1903, the following was adopted:

Resolved, That a warrant be drawn on the Custodian of School Moneys in the sum of twenty-eight thousand six hundred dollars (\$28,600), for the purpose of paying the salaries of the employees for the months of June and July, 1903, warrant to be drawn to the order of the Board of Education.

By order of the Board of Education,
CHAS. V. DARCY,
President.

Attest:

W. A. KERR,
Secretary.

The following report of the Commissioners of Assessments on the Improvement of Fifth street, between Madison and Jackson streets, was presented, read and referred to the Committee on Streets and Assessments, and the Clerk directed to advertise for objections thereto according to law:

Hoboken, June 24, 1903.
To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—We, the undersigned, Commissioners of Assessments, herewith present to your Honorable Body our report with the accompanying assessment map for the improvement of Fifth street, between Madison and Jackson streets.

Being entirely disinterested and not owning any land or real estate along the line of said improvement, we proceeded with the making of this assessment by carefully examining the improvement on the ground and by ascertaining and locating all lands and real estate benefited by the same, the accompanying map and assessment list shows the location and extent of all lands and real estate so benefited, designating each lot or parcel by lot and block number and the names of all owners as far as could be ascertained.

We have found the entire costs and expenses of said improvement to be as follows:

Total contractors' bill.....	\$1,665 36
Total incidental expenses.....	239 78

Total costs \$1,908 74

We have ascertained that the total costs and expenses of said improvement exceed the benefits received by all land and real estate therefrom to the amount of \$486.14, which amount we have assessed upon the city at large, the remaining sum of \$1,422.60 we have assessed upon all land and real estate benefited in proportion to benefits received.

We have also considered the question of damages and have concluded, after full deliberation, that no property was damaged by the making of said improvement, and that no person or persons were in any manner entitled to damages on account of the said improvement.

We have examined into the whole matter and have appointed a time for a hearing for all persons interested at the City Hall on Monday, the twenty-second day of June, 1903, at 7:30 o'clock p. m., and then and there have heard all objections and claims made before us against the said assessment and, after hearing and carefully considering the said objections and claims, at a subsequent meeting, held by us, we have finally completed our assessment as shown on the map and assessment list accompanying this report.

Respectfully,

JAMES HÄRKEN,
C. F. GUTH,

Commissioners of Assessments.

TIVY & SMITH,
City Surveyors.

John D. Everitt & Co.,
New York, July 9, 1903.

Fred'k Kaufmann, Esq., City Comptroller,
Hoboken, N. J.:

Dear Mr. Kaufmann—We hand you herewith a letter which we have just received from the Corporation Counsel and would ask you to kindly deliver to bearer our check for \$2,000, which we deposited with the bid for the bonds. Please understand that we regret more than you possibly can that the law under which these bonds were issued was considered unconstitutional and are sorry that we did not know in advance of the act, as we might have been of assistance to you in the matter.

With kindest regards, we are,

Yours very truly,

JOHN D. EVERITT & CO.
Office of Corporation Attorney,
Hoboken, July 8, 1903.

John D. Everitt & Co.:

Gentlemen—The Comptroller has handed me your letter to him of the 1st instant, with a request that I reply to it. I find no law under which the sewers of this city can be cleaned and paid for by bond issue, except the law of 1902, to which your counsel take exception as unconstitutional. Under the form of your bid

you are entitled therefore to the return of your \$2,000 check deposited with the City Clerk.

Yours truly,
JAMES F. MINTURN,
Corporation Attorney.

The following communication from Thomas N. McCarter, President of the Public Service Corporation of New Jersey, was presented, read and received:

Public Service Corporation of N. J.,
Newark, N. J., July 2, 1903.

Sir—I have received your letter informing me of the condition of the paving on Willow avenue, between First and Second streets, and have forwarded the same to the General Manager of our street railray department for his immediate consideration.

Very truly yours,
THOS. N. McCARTER.
JAMES H. LONDRIGAN,
City Clerk of Hoboken,
Hoboken, N. J.

The following communication from W. W. Wheatly, General Manager of the Public Service Corporation of New Jersey, enclosing communication sent by him to the contractor for the repaving of Willow avenue, was presented, read and received:

Public Service Corporation of N. J.:
Street Railway Department,
29 Exchange Place,
Jersey City, N. J., June 11, 1903.
Mr. James H. Londrigan, City Clerk, Hoboken, N. J.:

Dear Sir—I have before me your letter of July 1, addressed to Mr. McCarter, President, (and referred by him to me), relative to bad condition of pavement between our tracks and eighteen inches outside thereof, on Willow avenue, between First and Second streets, Hoboken,

Upon investigation, I find that contract for this work was awarded to Mr. Thomas Cavanagh, of your city, and attached hereto is a copy of letter sent to him to-day, which is self explanatory.

I trust the cause of complaint will be removed at an early date.

Yours truly,
W. W. WHEATLY,
General Manager.

Public Service Corporation of N. J.,
Jersey City, N. J., July 11, 1903.
Mr. Thomas Cavanagh, General Contractor,
Hoboken, N. J.:

Dear Sir—Attached is copy of letter received from James H. Londrigan, City Clerk of Hoboken, notifying this Company of the bad condition of paving between our tracks and eighteen inches outside thereof, on Willow avenue, between First and Second streets, Hoboken, and directing that repairs be made.

The contract for said improvement was awarded to you some time ago, and you have presented to this Company bill for same, which bill is being held by us on account of the poor work performed by you.

This letter is to advise that this bill cannot be approved for payment until the above pavement is repaired by you in manner satisfactory to the city authorities of Hoboken.

Will you, therefore, please proceed to make proper repairs at once?

Yours truly,
W. W. WHEATLY,
General Manager.

The following communication from Thomas N. McCarter, President Public Service Corporation of New Jersey, was presented, read and received:

Dear Sir—I take pleasure in informing you that not later than September 1st, and on August 1st, if the necessary arrangements can be completed by that time, the following additional transfer privileges will be given on the lines of the Jersey City, Hoboken & Paterson Street Railway Company in Hoboken to Hoboken passengers:

1. At Washington and Second streets, from Washington street south to Second street west.

2. At Washington and First streets, from First street east to Washington street north.

3. At Willow avenue and Second street, from Willow avenue south to Second street west.

At Clinton avenue and First street, from First street east to Clinton avenue north.

I hope these additional transfers will commend themselves to the judgment of your city authorities, and prove convenient to the people of your city. It is the desire of Public Service to better the street railway service throughout the whole system of the properties controlled by it in every reasonable way within its power.

Very truly yours,
THOS. N. McCARTER,
President.

JAMES H. LONDRIGAN, ESQ.,
City Clerk of Hoboken, N. J.

The following communication from the Taxpayers' Association was presented, read and referred to the Committee on Sewers:

To the Honorable Mayor and Council of the City of Hoboken:

Gentlemen—This association at its last meeting, July 15th, resolved to ask your Honorable Body that a committee be permitted to appear before you and explain the really dangerous

condition in which our sewers and almost our entire sewerage system is dangerous, because it threatens the health of a large and flourishing city, for the wages of deficient sewerage are disease and death. That the summer, so far, has been cool is no excuse for the neglect of our sewers. It may turn hot any time, in fact, many physicians believe that more diseases are contracted in winter because there in their closed rooms people inhale foul gases much more abundantly than in summer. This association respectfully prays that your Honorable Body have, without delay, all sewers carefully inspected and put in thorough working order, and have the nuisance that now exists abated.

Very respectfully,
The Taxpayers' Association of Hoboken.

L. S. FUGAZZI,
President.

J. H. HOPKINS, JR.,
Secretary Pro Tem.,
322 Park Avenue.

Petition from the Trustees of the First German Baptist Church of Hoboken, asking the Council to have two lights put in front of the Church at 707 Willow avenue, was presented, read and referred to the Committee on Lamps and Gas.

Communication from the Fidelity and Casualty Company of New York, relative to the inspection of boiler at City Hall, was presented, read and referred to the Committee on Finance and Salaries.

The following communication from Thomas H. McCann, City Surveyor, on the improvement of Ninth street, was presented, read and referred to the Committee on Streets and Assessments:

To the Honorable the Council of the City of Hoboken:

Gentlemen—This is to certify that Mr. Henry Waddington, to whom you awarded the contract for the paving of Ninth street, between Willow avenue and Clinton street, has completed the same and the improvement is now ready for examination and acceptance by your Honorable Body.

Respectfully submitted,

THOS. H. McCANN,

City Surveyor.

The following communication from the Board of Health was presented, read and referred to the Committee on Sewers:

To the Mayor and Council of the City of Hoboken:

Gentlemen—In April of this year we sent to your Honorable Body a communication from a Committee of this Board in regard to the condition of the sewers in the meadow districts and lowlands of the City of Hoboken. Nothing

has been done to carry out the recommendations suggested in that communication, and it therefore becomes the duty of this Board to make a formal presentment of this matter to your Honorable Body, and call upon you to adopt a method of effectually and systematically draining the meadow districts and lowlands of this city. We do this in compliance with the laws of this State (General Statutes of New Jersey, page 632, Section 844, etc.), which make it the solemn duty of your Honorable Body to take whatever means are necessary to remedy the present condition of things when the facts have been formally presented to you by the Board of Health.

All the sewers of what is known as the meadow district and lowlands of the City of Hoboken, that is, generally speaking, all that part of the city which is west of Bloomfield or Garden street, are several feet below high water, and the tidal sewer system which exists to-day in this city is therefore unable to properly drain and empty the sewers of that portion of the city. Into these sewers flows not only the surface drainage, but also all the sewage from private houses, and to-day they are nearly half filled with filthy mud and solid matter, which never flows out of the sewers because the water in the sewers has not sufficient force to force it out. The liquid contents of these sewers flows back and forth in accordance with the tide, and as the sewers fill up the liquid contents are forced back into the meadows and into the cellars of the houses, and becomes a detriment to the health of the inhabitants of the whole city. This condition of things is yearly becoming worse, because of the large increase in the population of this portion of the city.

We find that a condition of things exists to-day which is endangering the health of the entire city, and that this condition of things is daily becoming worse. If an epidemic of disease should break out in this section to-day the condition of the sewers would make it impossible to properly control the epidemic, and it is a wonder that the city is as healthy to-day as it is. In the opinion of this Board this condition of things is due to the fact that the tidal sewers now in operation do not drain the lowlands and meadow districts of this city, and that the cleansing of the sewers such as has been suggested by your Honorable Body would simply be a waste of money. The sewers would immediately fill up again with the same filthy solid matter. In order to properly drain the sewers and make them clean a pumping system must be established, and in the opinion of this Board it is absolutely necessary that such a system be established at once, in order to preserve the health of the entire city. We beg to call your attention to the

fact that over a year ago a committee of well-known citizens of Hoboken was appointed to investigate this question, and after a careful and thorough investigation the committee reported that in its opinion the only effective system for this city was a pumping system. Plans and specifications were drawn up by competent engineers a large cost and expense to carry out a pumping system, and these plans and specifications were put at the service of the city.

It appeared from the report of the Committee that a thorough pumping system could be established at a cost not to exceed \$300,000, and those plans are to-day at the service of your Honorable Body. We make a formal and urgent presentation of all these facts to your Honorable Body and we hereby call upon you to inquire into the facts hereby represented, and to take steps to immediately remedy a condition of things which endangers the health of the inhabitants of this city. We further beg to call your attention to the fact that the laws of this State empower your body to establish a pumping system and provide an efficient method of meeting the cost in a way which is easy and just for the city. This same law makes it your solemn duty to establish such a system when the facts have been presented to you by the Board of Health.

Dated Hoboken, N. J., July 30, 1903.

JOSEPH TUCKER,
Clerk.

The following communication from William J. Dynan, President of the Commissioners of Assessment of Taxes, was presented, read and referred to the Committee on Finance and Salaries, in conjunction with the Corporation Attorney:

Commissioners of Assessment of Taxes,
Hoboken, N. J., Aug. 27, 1903.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—The attention of this Board has been called through the medium of the public press of the action taken by the Commissioners of Appeals in reducing the assessment placed on the property of the North German Lloyd Steamship Company from \$2,602,000 to \$1,602,000, making a total reduction of \$1,000,000, involving a loss of revenue to the city of \$23,300.

We would respectfully call the attention of your Honorable Body to the great injustice perpetrated upon the city at large by this unfair and unjustified reduction, and would respectfully request your Honorable Body to take such action as you may deem necessary to provide an opportunity for this Board to have the merits of its assessment reviewed by

either recourse to the courts or by an appeal to the State Board of Taxation.

Yours very respectfully,
WM. J. DYNAN,
President.

The following communication from Besson & Spohr, attorneys, was presented, read and referred to the Committee on Finance and Salaries:

To the Honorable the Mayor and Council of the City of Hoboken:

Your petitioner, Thomas Costello, of Hoboken, Hudson County, New Jersey, as administrator of the estate of John Costello, deceased, late of said Hudson County, New Jersey, respectfully shows that the said John Costello died on or about the twenty-third day of April, eighteen hundred and ninety-two, intestate, and that letters of administration on the estate of the said John Costello, deceased, were granted by the Surrogate of Hudson County, New Jersey to your petitioner, who took upon himself the burden of the administration of the said estate. Your petitioner further shows that the said John Costello, in his lifetime, held an agreement from the Hoboken Land and Improvement Company, a corporation of this State, in and by which the said Hoboken Land and Improvement Company agreed to convey to the said John Costello a certain lot of land and premises situated in said city and known as city block number 162, city lot number 21, and also known as 1025 Clinton street, when the said John Costello should have complied with certain conditions mentioned in the said agreement.

Your petitioner further shows that the purchase price for the said land was fully paid, but that the said John Costello, in his lifetime, never complied with the said conditions and died possessed of the said agreement. Your petitioner further shows that the taxes on the said premises were allowed to fall in arrears and that the said premises were sold by the Collector of Revenue of the City of Hoboken on the twenty-eighth day of May, in the year nineteen hundred, for said taxes, and that one Thomas Costello purchased for the sum of two hundred and twenty dollars (\$220), the said lot of land and premises; that said lot of land was sold pursuant to Chapter one hundred and twelve (112) of the laws of this State of 1886, and supplements thereto; that the said Thomas Costello performed all things that were necessary to perfect the title to said lands, and that on the second day of July, in the year nineteen hundred and three, said Collector of Revenue of the City of Hoboken, delivered to said Thomas Costello a deed conveying to him the said lot of land and premises in fee simple.

Your petitioner further shows that on the said twenty-eighth day of May, in the year

nineteen hundred, the date of the said sale to said Thomas Costello, said Thomas Costello paid to the said Collector of Revenue the amount due for taxes and arrears of taxes on the said premises, and the costs of said sale, amounting in all to the sum of two hundred and eleven dollars and thirty-four cents (\$211.34). Your petitioner therefore shows that he is entitled to the difference between the said sum of of two hundred and eleven dollars and thirty-four cents (\$211.34), the amount due the city and the sum of two hundred and twenty dollars (\$220), paid by said Thomas Costello for the said lot of land and premises, or the sum of eight dollars and sixty-six cents (\$8.66). Your petitioner therefore prays that your Honorable Body will make a proper resolution directing the City Treasurer of the City of Hoboken to pay and refund to your petitioner, as administrator as aforesaid, or to Besson & Spohr, his attorneys, the said sum of eight dollars and sixty-six cents (\$8.66).

And your petitioner will ever pray, etc.,
BESSON & SPOHR,
Attorneys for petitioner.

The following communication from the Taxpayers' Association was presented, read and referred to the Committee on Finance and Salaries:

To the Honorable the Mayor and Council of the City of Hoboken:

At a meeting of the Taxpayers' Association of Hoboken, N. J., held on Wednesday evening, August 19, 1903, it was unanimously decided that the Secretary be directed to present a protest to your Honorable Body against the action of the Commissioners of Appeals of this city in making a reduction of \$1,000,000 in the assessment of the property at the foot of Second and Third streets, on the Hudson river, owned by the North German Lloyd Dock Company and controlled by the North German Lloyd Steamship Company, as lessees. First, because the petition presented by the said North German Lloyd Steamship Company was not sworn to by the petitioner or its agent, thereby not being in conformity with the form as provided for in the city charter and statutes relating thereto and therefore the said petition not being properly before the Board of Commissioners of Appeals, the said Board could not legally take any official notice of the same and any action taken thereon was illegal and void.

Second. That even if the said petition had been in proper form the reduction made by the said Board of Commissioners of Appeals was grossly unwarranted, unreasonable and in opposition to common sense and fair judgment, visibly showing the lack of sense of duty possessed by the members of the said Board, who voted for the said reduction.

And therefore the Taxpayers' Association of Hoboken, N. J., respectfully petition your Honorable Body that in common justice and fairness to the taxpayers of the city of Hoboken you refuse to confirm the action of the said Board of Commissioners of Appeals and that the assessment placed on the property in question by the Commissioners of Assessment of Taxes be sustained.

Dated Hoboken, N. J., Aug. 26, 1903.
Very respectfully,
The Taxpayers' Ass'n of Hoboken,
CHARLES FAIST,
Secretary.

The following communication from His Honor Mayor Lankering was presented, read and referred to the Committee on Finance and Salaries:

Mayor's Office,
Hoboken, Aug. 26, 1903.

To the Council:

Gentlemen—The report of the Board of Appeals Commissioners, which will be submitted to you at to-night's meeting of your Honorable Body, I am informed, will show, among numerous reductions in the ratables of property in this city the enormous reduction of \$1,000,000 in the assed valuation of the property of the North German Lloyd Steamship Company. This reduction has caused general consternation, inasmuch as it exemplifies what a majority of the Appeals Commission are able to accomplish when misled or under influence not in harmony with the interest of the city.

They may upset the very foundation of the city's finances. If permitted to interfere in such reckless manner the valuations of the Board of Assessors. In this case the Appeals Commissioners were acquainted with all facts and figures which justified the assessment and every detail which led to the valuation was gone into very carefully.

There was nothing left for them to do but to sustain the action of the Assessors and leave the assessment undisturbed. Assurances to this effect on their part were given, but not realized. The North German Lloyd have been treated most generously by the people of Hoboken and receive grants of great value without any compensation to the city. The least we may expect in return that they share in the expenditure of our administration like any other taxpayer, and it is our duty to the many small property owners to see that the corporations will not impose upon them.

Therefore I wish to advise to refuse the confirmation of the reduction of the North German Lloyd property.

Yours respectfully,
A. LANKERING,
Mayor.

The following communication from Collector of Revenue Bowes was presented, read and referred to the Committee on Finance and Salaries:

Office of Collector of Revenue,
Hoboken, Aug. 26, 1903.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—I would respectfully call your attention to the matter of the Franchise Tax assessed against the Hudson County Gas Company for the year 1901, amounting to \$1,640.28, with interest to be added from January 10, 1902. The said tax was levied under the new Franchise Tax law, approved March 23, 1900, and duly certified to this office for collection. I have used my best efforts to collect the said tax, but without success. Now, as the Hudson County Gas Company is leased, or merged into the Public Service Corporation of New Jersey, I placed the matter before the said new corporation and in reply received a letter from the said corporation, through the President, Mr. Thomas N. McCarter, in which they claim under a decision the corporation is not liable for the tax.

I annex a copy of Mr. McCarter's reply to my communication of July 24, 1903. I would therefore ask your Honorable Body to have the matter placed in the hands of the Corporation Attorney for further action, and oblige

Very truly yours,
RICHARD BOWES,
Collector of Revenue.

Public Service Corporation of N.J.
Office of the General Counsel.

Newark, N. J., July 28, 1903.

Dear Sir—I have inquired into the matter concerning which you wrote me in your letter of July 24, relative to the tax claimed to be due from the Hudson County Gas Company to the City of Hoboken for the year 1901.

I am advised by counsel that owing to the decision in the Plainfield Water Supply Company case the Hudson County Gas Company is not liable for the payment of this tax, as during the year in question none of its gross receipts in the City of Hoboken came from the operation of a franchise granted by the City of Hoboken.

Very truly yours,
THOMAS N. McCARTER,
President.

Richard Bowes, Esq., Collector of Revenue,
Hoboken, N. J.

The following communication from License Inspector McGovern, enclosing communication sent to him by Charles Sieger & Bro., asking the Council for a refund of money for concert hall license, paid by him, was presented, read and referred to the Committee on Licenses:

To the Honorable Board of Common Council:

Gentlemen—The within letter from Charles Sieger, asking permission to withdraw his ap-

plication for concert hall license, was received by me. I most respectfully refer same to your Honorable Body for your consideration.

Respectfully yours,
JOHN J. McGOVERN,
License Inspector.

Aug. 11, 1903.

Mr. McGovern:

I would like to have my money back of the concert hall license. Business calls me away and I cannot be bothered with it any longer.

I've been waiting for it a long time. I will be away for at least three months, and when I come back it will be time enough to look after it.

Excuse pencil writing, and oblige.

Yours truly,
CHAS. SIEGER,
414 Jackson St.,
Hoboken, N. J.

The following communication from Joseph P. O'Lone was presented, read and referred to the Committee on Printing and Stationery:

Central Labor Union
of Hudson County, N. J.
Hoboken, Aug. 31, 1903.

Honorable Mayor and Council of the City of Hoboken:

Gentlemen—At the last meeting of the Central Labor Union of Hudson County the fact was made known that your Honorable Body was having official notices published in a non-union German newspaper, the Rundschau. A protest has been entered against this action by Typographical Union No. 323 of Hoboken, and I have been instructed to forward same to your Honorable Body.

The fact that the Common Council of the City of Hoboken passed a resolution that no printing or publishing could be given to any newspaper or shop not using the label of the International Typographical Union is sufficient for your Honorable Body to take action in the matter.

Respectfully,
JOSEPH P. O'LONE,
Secretary.

The following communication from Allen, Sand & Co., was presented, read and referred to the Committee on Finance and Salaries, in conjunction with the Corporation Attorney:

Allen, Sand & Co.,
7 Pine Street.

New York, Sept. 22, 1903.

To the Common Council of the City of Hoboken, N. J.:

Gentlemen—On October 22, 1902, in compliance with your advertisement, we submitted a bid for the whole or none of \$130,000 City of Hoboken School Bonds, and \$15,000 City of Hoboken Refunding Fire Engine House Bonds, and, as evidence of our good faith, as required by the advertisement, we deposited with you a certified check for \$6,000, for which we have received no consideration whatever.

We have repeatedly requested of you the return of this check, because said issue of School Bonds was never duly authorized or valid. As you cannot now have any reason or excuse for retaining the possession of this check, you would greatly oblige us by returning the same at once.

Yours truly,

ALLEN, SAND & CO.

Communication from Chief of Police Hayes, enclosing list of lights reported not burning for the month of August, 1903, was presented, read and referred to the Committee on Lamps and Gas.

Office Board of Education,
Hoboken, Sept. 16, 1903.

To the Honorable Mayor and Council of the City of Hoboken:

Gentlemen—I have been directed to call your attention to the sunken condition of Adams street, fronting the new school property, it being necessary to have this portion of the street in proper condition before the concrete sidewalks around the school can be laid. The Board believe that your Committee will attend to this when it comes to their knowledge.

By order of the Board,

W. A. KERR,
Secretary.

On motion of Councilman Hoppe the report was received.

The following report from the Committee on Finance and Salaries was presented and read:

To the Honorable the Council of the City of Hoboken:

Gentlemen—Your Committee on Finance and Salaries to whom was referred the petition of the Taxpayers' Association and the communication of His Honor Mayor Lankering, the communication from the Commissioners of Assessment of Taxes and the report of the Commissioners of Appeals, would respectfully report that they have met in conjunction with the Corporation Attorney and considered the matters alleged in the said communication and also the right of the Commissioners of Appeals to make the reductions complained of.

Your Committee are of the opinion that the Commissioners of Appeals in making the said reduction did so without any moral or reasonable grounds therefor, and that their action in

so doing should be condemned by all public-spirited citizens.

The question of water front valuations is a subject which involves close and earnest study for a correct and sensible solution and the Commissioners of Assessment of Taxes having given that question consideration for many months, and in some instances for years, were entitled to have the result of their consideration and study of the question considered as final.

Before attempting any reduction the Commissioners of Appeals should have consulted with the Commissioners of Assessments who had spent time and labor and study upon the question.

Your Committee are of the opinion that the action of the Commissioners of Appeals, in throwing off one million dollars of the assessment of the water front without thorough consideration of the subject in conjunction with the Commissioners of Assessment is highly reprehensible.

Your Committee would therefore recommend that the Collector of Revenue of Taxes be directed not to recognize the reduction made by the Commissioners of Appeals, but to insist upon the payment of taxes by the steamship companies upon the original amount of the assessment as fixed by the Board of Assessors

Respectfully submitted,

JAS. O'ROURKE,
H. R. HOPPE,
CHAS. SCHULTZE.

The following communication from James F. Minturn, Corporation Attorney, was presented, read and referred to the Committees on Finance and Salaries and Public Grounds and Buildings:

Office of Corporation Attorney,
Hoboken, Sept. 30, 1903.

To the Honorable the Council:

Gentlemen—At a meeting of the School Board last evening I was obliged to state that as yet no judgment had been entered in the Court of Errors declaring the McKee act unconstitutional, and that until such judgment be entered the act remains in force for all practical purposes. The effect of this conclusion is that the School Board must continue to act under the provisions of that law until they be notified of the entry of the judgment. I am of the belief that no judgment will be entered until an extra session of the legislature shall have passed another act similar to the McKee without its illegal features. This will mean that we shall have to experiment with the new act as we did with the old before bonds will be accepted under its provisions. At the same time I think that concerted action should be taken by the municipalities of this State to prevent the re-enactment of such another piece of experimental legislation, so utterly opposed to the principles of home rule and democratic government as the McKee act. The attempts of the State board to legislate for us on this subject since 1900 have kept school matters in a state of turmoil, and most of the school districts in a state of uncertainty bordering on financial embarrassment. Our school bonds, prior to the invasion of the field of legislation by the State Board, were eagerly sought after and brought high prices, while to-day they are scanned with doubtful eyes and only bid for upon the condition that tedious and expensive litigation shall establish their validity.

Aside from these considerations, the centralization of school authority in Trenton, and the creation of an independent taxing body in our midst, called a Board of Estimate, are so utterly incompatible with the theory of our government and institutions, and hostile to our best interests, that it is surprising, to say the least, that such measures were allowed free passage without a word of protest from any member of the Legislature.

But the matter is so important now in all its bearings to us as citizens and taxpayers, that I trust your Honorable Body will enter your protest against any attempt to re-enact it.

Yours truly,

JAMES F. MINTURN,
Corporation Attorney.

The Committee on Streets and Assessments, to whom were referred the petition of property owners along the line of Eleventh street, from Clinton street to Madison street, Hoboken, reported in favor of directing the Clerk to advertise for objections thereto according to law.

On motion of Councilman Greten the report was received and the recommendations adopted by the following vote:

Ayes—Councilmen Fitzpatrick, Fox, Greten, Hoppe, Hopper, O'Rourke and Chairman pro tem. Schultze.

Nays—None.

Absent—Councilmen Cooke, Voll and Chairman Stein.

Councilman O'Rourke presented the following:

Whereas, The State Board of Education has on two occasions attempted by legislation to centralize authority in itself over all school matters, contrary to the spirit of the constitution and the principles of home rule, both of which attempted acts of legislation have been declared unconstitutional by our Courts; and

Whereas, It is to the interest of the people that public schools and all things incident thereto, including the important power of taxation for school purposes, should be immediately under the control of the people who are taxed to support the same, and not under the control of an arbitrary and irresponsible board at Trenton; therefore

Resolved, That our representatives in the legislature from this County be requested to vote against any proposed act of legislation vesting in the State Board of Education powers similar to those contained in the unconstitutional Stokes act of 1900 and McKee act of 1902.

Adopted by the following vote:

Ayes—Councilmen Fitzpatrick, Fox, Greten,

Hoppe, Hopper, O'Rourke and Chairman pro tem. Schultze.

Nays—None.

Absent—Councilmen Cooke, Voll and Chairman Stein.

Councilmen Greten, Hopper and Fitzpatrick presented the following:

Whereas, The bids for the construction of the box sewer from Fourteenth and Grand streets through Grand street to Fifteenth street and thence to a point east of the Boulevard, are unsatisfactory and not to the interest of the city; therefore

Resolved, That the resolution passed at the last meeting of the Council, awarding to said contract to Thomas Cavanagh, be and the same is hereby rescinded; and

Resolved, That all of the said bids be and they are hereby rejected and the City Clerk is hereby directed to readvert for new bids for the doing of said work.

Adopted by the following vote:

Ayes—Councilmen Fitzpatrick, Fox, Greten, Hoppe, Hopper, O'Rourke and Chairman pro tem. Schultze.

Nays—None.

Absent—Councilmen Cooke, Voll and Chairman Stein.

Councilmen Fitzpatrick, Greten and Hopper presented the following:

Whereas, Thomas Cavanagh is the lowest responsible bidder for the work on the construction of the sewer in Newark street, from Park to Willow avenue, and in Willow avenue to First street; therefore

Resolved, That the contract for said work be and it is hereby awarded to Thomas Cavanagh at the figures stated in his bid, and the Corporation Attorney is hereby directed to draw the necessary bond and contract for the doing of said work.

Adopted by the following vote:

Ayes—Councilmen Fitzpatrick, Fox, Greten, Hoppe, Hopper, O'Rourke and Chairman pro tem. Schultze.

The following communication from E. W. Arrowsmith, Jr., attorney, was presented, read and referred to the Committee on Finance and Salaries in conjunction with the Corporation Attorney:

Hoboken, Nov. 19, 1903.

To the Mayor and Council of the City of Hoboken:

Dear Sirs—The election officers of the City

of Hoboken, who served at the municipal elections of 1901 and 1902, placed their claims for compensation in my hands for collection. By agreement with the Corporation Counsel, a test case was brought in the name of David M. Hubbell, in which suit judgment was given against the city for the sum of twenty dollars and costs. The case was afterward appealed for the purpose of obtaining an adjudication by the Court of Errors and Appeals, which Court at the present term decided that all election officers in cities who served at the municipal elections were entitled to compensation from the cities, independent of the compensation received for conducting the general election.

The question now being determined by the highest court of the State, I hereby request that your Honorable Body make immediate provision for the settlement of these claims.

Very truly yours,

E. W. ARROWSMITH, JR.,
Attorney.

Communication from a large number of citizens asking the Council to pass an ordinance regulating the uses of soft coal, was presented, read and referred to the Committee on Laws and Ordinances in conjunction with the Corporation Attorney and the Clerk directed to forward a copy of the same to the Board of Health.

The following communication from Robert Schinzel, executor, was presented, read and referred to the Committee on Finance and Salaries in conjunction with the Corporation Attorney:

Hoboken, Nov. 23, 1903.

Honorable Mayor and Council of the City of Hoboken, N. J.:

Gentlemen—As executor of the estate of my late father, George P. Schinzel, I would respectfully petition your Honorable Body to have issued a duplicate declaration of sale for the property described as follows: Willow avenue, block No. 43, lot No. 32, assessed to unknown, sold July 27, 1872, for taxes of 1871, amount \$26.47.

I have searched diligently among my late father's papers, but fail to find any trace of it, the same having been lost or destroyed.

As the original owners are now in a position to redeem this property, and as it cannot be done until the certificate is cancelled of record, your petitioner would pray that the request be granted.

Yours respectfully,
ROBT. SCHINZEL,

Executor estate of George P. Schinzel.

Office of Collector of Revenue,
Hoboken, Nov. 25, 1903.

To the Honorable Mayor and Council of the City of Hoboken:

Gentlemen—I have this day filed with the City Clerk a statement of the assessment filed in my office for the improvement of Grand street, between Seventh and Eighth streets, being for paving, grading, curbing, etc., which assessment was confirmed by your Honorable Body on July 23, 1902, and duly approved by Mayor Lankering on the 28th day of July, 1902, the total of which assessment amounted to \$3,439.60, and of that amount I have collected the sum of

Principal	\$3,439.68
Interest	24.18

\$3,463.86

and turned the same over to Mr. James Smith, Treasurer, City of Hoboken, taking his receipts for same, which leaves no delinquency due and owing on said improvement.

Respectfully submitted,
RICHARD BOWES,
Collector of Revenue.

The following communication from the Board of School Estimate was presented, read and referred to the Committees on Finance and Salaries and Public Grounds and Buildings, in conjunction with the Corporation Attorney:

Office of Board of Education,
Hoboken, Nov. 23, 1903.

To the Honorable the Common Council:

Gentlemen—This is to certify that the Board of School Estimate, according to Section 77, Article VI, of an act entitled "An act to establish a system of public instruction," approved October, 1903, met at the office of the Board of Education on Monday evening, November 23, 1903, and upon the presentation of an itemized statement from the Board of Education of the amount estimated to be necessary for the payment of the school site and the erection and completion of the building to be known as Public School No. 8, did carefully consider the same and after due deliberation, have fixed and determined that the following amount specified is necessary for the purpose named, viz.: Payment of school site..... \$12,000.00 Erection and completion of building, as per contracts 107,847.45 Furniture, etc 8,215.75

Incidentals and interest on certificates	19,936.80
--	-----------

Total \$140,000.00

We therefore ask your Honorable Body to appropriate the amount above certified to above and borrow the same by the issue of bonds, to be designated "School Bonds."

By order of the Board of School Estimate,
A. LANKERING,

Attest:
WM. A. KERR,
Secretary.

The following map and report of the Commissioners of Assessment was presented, read and referred to the Committee on Streets and Assessments:

Hoboken, Nov. 24, 1903.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—We the undersigned, Commissioners of Assessment, herewith present to your Honorable Body this our report, with the accompanying assessment map, for the improvement of Ninth street, between Willow avenue and Clinton street.

Being entirely disinterested and not owning any land or real estate along the line of said improvement, we proceeded with the making of this assessment by carefully examining the improvement on the ground and by ascertaining and locating all lands and real estate benefited by the same, the accompanying map and assessment list shows the location and extent of all lands and real estate so benefited, designating each lot or parcel of land by lot and block number and the names of all owners as far as could be ascertained.

We have found the entire costs and expenses of said improvement to be as follows:

Total contractors' bill.....	\$1,166 10
Total incidental expenses.....	154 13

Total costs \$1,320 23

We have ascertained that the total costs and expenses of said improvement exceed the benefits received by all lands and real estate therefrom to the amount of \$424.06, which amount we have assessed upon the city at large, the remaining sum of \$896.17 we have assessed upon all lands and real estate benefited in proportion to the benefits received.

We have also considered the question of damages and have concluded after full deliberation that no property was damaged by the making of said improvement, and that no person or persons were in any manner entitled to damages on account of the said improvement. We have examined into the whole matter and have appointed a time for a hearing for all persons interested at the City Hall on Monday, November 9, 1903, at 8:30 p. m., and then and there heard all objections and claims made before us against the said improvement assessment and after hearing and carefully considering the said objections and claims at a subsequent meeting held by us. We have finally completed our assessment as shown on the map and assessment list accompanying this report.

Respectfully submitted,

C. F. GUTH,

JAMES HARKSEN,

HERMAN C. ECKELMAN.

THOS. H. McCANN,

City Surveyor.

The following communication from His Honor Mayor Lankering, enclosing communication from M. J. H. Ferris, attorney and counsel for the Salvation Army, was presented, read and received, and referred to the Committee on Finance and Salaries:

Mayor's Office,
 Hoboken, N. J., Dec. 9, 1903.

To the Council:

Gentlemen—Herewith I refer to your Honorable Body a communication from the attorney for the Salvation Army, requesting exemption from taxation on property donated to the Sal-

vation Army by Mr. Richard Stevens for charitable purposes. I would advise the grant of this exemption for the reasons set forth in above mentioned communication.

Respectfully,
 A. LANKERING,
 Mayor.

The Salvation Army Legal Dept.,
 Nov. 17, 1903.

Mayor of Hoboken, City Hall, Hoboken, N. J.:

Dear Sir—I have just received a bill for \$16.60 taxes on property donated to us by Mr. Richard Stevens for the religious and charitable purposes of this religious and charitable corporation in its work in your city. As all the emoluments that will be derived from that property are devoted to charitable purposes, as the entire building is used for charitable purposes of this religious corporation in its work in your city, I presume of course we are exempt from taxation, or should be, as doing this work in your midst we should at least not be compelled to pay taxes, but should be privileged, and I think you will agree with me, to receive the same benefits that we receive in other localities, viz., exemption from taxation. Will you kindly let me know whether it will be necessary for me to petition the Tax Commissioners in order to receive the benefits of exemption and this property be made free and clear from taxation? I am,

Yours very truly,

M. J. H. FERRIS,
 Attorney and Counsel for Salvation Army.

The following communication from James H. Londrigan, City Clerk, was presented, read and received:

Office of City Clerk,
 Hoboken, N. J., Dec. 9, 1903.

Gentlemen—I beg leave to inform your Honorable Body that Mr. August Zatta, elected Tax Commissioner for the Fifth Ward at the General Election held on November 3, 1903, has failed to qualify, thereby causing a vacancy in pursuance of the 12th section of the City Charter which your Honorable Body has the power to fill.

Yours respectfully,
 JAMES H. LONDRIGAN,
 City Clerk.

The following communication from the Board of Water Commissioners was presented, read and referred to the Committee on Finance and Salaries:

Water Commissioners' Office,

The following assignment of contract of Peter J. Kennelly to Michael A. Sullivan was presented, read and referred to the Committee on Sewers:

Whereas, Peter J. Kennelly, of the City of Hoboken, County of Hudson and State of New Jersey, made and entered into an agreement with the Mayor and Council of the City of Hoboken, for the furnishing of all necessary work, labor and material for the construction of a box sewer in Grand street, from Fourteenth to Fifteenth street, and in Fifteenth street, from Grand street to the box sewer at the easterly line of the Hudson Boulevard; also for the lowering the twenty-inch pipe across Grand and Thirteenth streets, in said City of Hoboken, in conformity with the specifications on file in the City Clerk's office in said City of Hoboken, and according to plans and profiles made by Tivy & Smith, City Surveyors, which agreement is dated the fourth day of November, nineteen hundred and three, and approved by the said Mayor and Council on November twenty-ninth, nineteen hundred and three; and

Whereas, Said Peter J. Kennelly entered into a bond with the said Mayor and Council of the City of Hoboken, bearing date the said fourth day of November, nineteen hundred and three, with Michael A. Sullivan and Charles Wagner, both of the City of Jersey City, as sureties, conditioned for the proper performance of the work mentioned and described in said agreement;

Now, therefore, know all men by these presents, that I, the said Peter J. Kennelly, for and in consideration of one dollar (and other valuable considerations) to me in hand paid by the said Michael A. Sullivan, of the City of Jersey City, the receipt whereof is hereby

acknowledged, have assigned and by these presents do assign to the said Michael A. Sullivan and his assigns, all my right, title, interest, claim and demand whatsoever that I have in and to said agreement, and in and to all moneys now due and which may hereafter become due to me from the said Mayor and Council by virtue of the agreement aforesaid, and I do hereby make, constitute and appoint the said Michael A. Sullivan my true, sufficient and lawful attorney, for me and in my name, place and stead to proceed with and complete the work mentioned and described in the said agreement, and upon the completion thereof according to the said specifications and the acceptance of said work by the said Mayor and Council, to ask, demand, sue for, recover and receive all moneys now due, or which may hereafter become due from the said Mayor and Council by reason of the aforesaid agreement, and upon the receipt thereof, or of any part or parts thereof, to make, give and execute proper acquittances, receipts, releases or other discharges for the same, either in my own name or in the name of the said Michael A. Sullivan, and to do and perform all and every act and thing whatsoever requisite and necessary to be done in and about the premises for the completion of said work mentioned in said agreement as fully to all intents and purposes as I might or could do if personally present, hereby ratifying and confirming all that my said attorney shall lawfully do or cause to be done by virtue hereof.

In witness whereof, I have hereunto set my hand and seal the fifteenth day of December, in the year of our Lord one thousand nine hundred and three.

PETER J. KENNELLY.
(Seal.)

Signed, sealed and delivered in the presence of

JOHN J. WALSH.

Know all men by these presents, that I, Michael A. Sullivan, the assignee mentioned in the foregoing assignment of contract, do hereby accept the said assignment and for and in consideration of the sum of one dollar to me in hand paid by the Mayor and Council of the City of Hoboken, the receipt whereof is hereby acknowledged, I do hereby covenant and agree with the said Mayor and Council to complete the work mentioned in said assignment and in the said agreement made by the said Peter J. Kennelly with the said Mayor and Council according to the specifications of said work now on file in the City Clerk's office of said City of Hoboken, and according to the plans and profiles prepared by Tivy & Smith, City Surveyors, to the satisfaction of said Mayor and Council, for the prices mentioned in the proposal of said Peter J. Kennelly, and set

forth in said agreement, and I do hereby further covenant and agree with said Mayor and Council that in consideration of the premises and of the terms of the foregoing assignment and ratification thereof by the said Mayor and Council that I will well and truly save and keep harmless the said Mayor and Council from all and all manner of claims and demands for work, labor and material incurred by the said Peter J. Kennelly in the prosecution of the said work mentioned in said agreement.

In witness whereof I have hereunto set my hand and seal this fifteenth day of December, in the year of our Lord one thousand nine hundred and three.

MICHAEL A. SULLIVAN.

The following communication from James F. Minturn, Corporation Attorney, was presented, read and referred to the Committee on Finance and Salaries:

Office of Corporation Attorney,
Hoboken, Dec. 16, 1903.
To the Honorable the Council of the City of Hoboken:

Gentlemen—Two very important assessments have been recently reduced by the State and local authorities which will not only increase the tax rate for this year, but for all time,

unless appropriate legal steps be taken at once to rectify these reductions. The local Commissioners of Appeal have recently reduced the assessment of the North German Lloyd one million dollars and the State Board of Assessors have cut down the franchise tax due to this city to the extent of \$9,000.

It is advisable to contest at once the right of the local Board of Commissioners of Appeal to make the wholesale reduction made recently and as the matter is a most important one and involves grave legal questions, I would suggest, in view of the importance of the result in the future government of city affairs, that I be empowered to retain extra counsel to assist in maintaining the city's case. I would therefore suggest that your Honorable Body pass a resolution empowering me to retain Hon. Alian L. McDermott as extra counsel.

Yours truly,
JAMES F. MINTURN,
Corporation Attorney.

Hoboken, Dec. 16, 1903.

Honorable Mayor and Council of the City of Hoboken:

Gentlemen—Herewith please find requisition from Board of Education for the sum of sixteen thousand five hundred dollars (\$16,500). Kindly have warrant drawn to the order of James Smith, Custodian of School Moneys.

Respectfully yours,

JAMES SMITH,
Custodian of School Moneys,
of the City of Hoboken.

Office of Board of Education,
Hoboken, Dec. 15, 1903.

James Smith, Esq., Custodian of School Moneys, Hoboken, N. J.:

Dear Sir—This is to certify that at a special session of the Board of Education held on Monday evening, December 14, 1903, the following was adopted:

Resolved, That a warrant be drawn on the Custodian of School Moneys, in the sum of sixteen thousand five hundred dollars, for the purpose of paying the salaries of the employees for December and such claims as may be ordered paid.

By order of the Board of Education,

W. A. KERR,

The following map and report of the Commissioners of Assessments on the improvement of Harrison street, between First and Second streets, was presented, read and referred to the Committee on Streets and Assessments:

Hoboken, Dec. 23, 1903.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—We the undersigned, Commissioners of Assessments, herewith present to your Honorable Body our report, with the accompanying assessment map, for the improvement of Harrison street, between First and Second streets. Being entirely disinterested and not owning any land or real estate along the line of said improvement, we proceeded with the making of this assessment by carefully examining the improvement on the ground and by

ascertaining and locating all lands and real estate benefited by the same, the accompanying map and assessment list shows the location and extent of all lands and real estate so benefited, designating each lot or parcel by lot and block number and the names of all owners, as far as could be ascertained. We have found the entire cost and expense of said improvement to be as follows:

Total contractor's bill.....	\$3,037 62
Incidental expenses	339 92

Total cost	\$3,376 94
------------------	------------

We have ascertained that the total cost and expense of said improvement exceeds the benefits received by all land and real estate therefrom to the amount of \$883.84, which sum we have assessed upon the city at large, the remaining sum of \$2,493.10 we have assessed upon all lands and real estate benefited in proportion to the benefit received.

We have also considered the question of damages and have concluded, after full deliberation, that no property was damaged by the making of said improvement, and that no person or persons were in any manner entitled to damages on account of the said improvement.

We have examined into the whole matter and have appointed a time for a hearing for all persons interested at the City Hall on Thursday, the 17th day of December, 1903, at 7:30 p. m., and then and there have heard the objections and claims made before us against the said assessment, and after having carefully considered the said objections and claims at a subsequent meeting held by us, we have finally completed our assessment as shown on the map and assessment list accompanying this report.

Respectfully submitted,
JAMES HARKSEN,
C. F. GUTH,

Commissioners of Assessments.

TIVY & SMITH,
